

Digital UX

MyLowe's Rewards

January 2025

Loyalty Adoption: From Like to Love

 Our goal is to **make digital loyalty easy** to understand and benefit from so that **customers return again and again**

More People

“Deciding to join Lowe’s Rewards was a no-brainer”

- Awareness: More-clearly articulate MLR/MLPR value throughout the journey
- Make it easy to sign-in when and where it matters
- **KPI:** Authenticated Shoppers

More Spend

“Lowe’s rewards me for being a loyal customer”

- Create and enhance member savings opportunities
- Reminder of benefits as they are applied
- **KPI:** Member Deal CVR

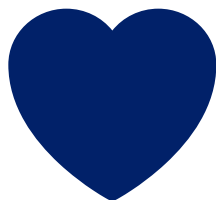

More Engagement

“I’m coming back to Lowe’s to redeem my points”

- More-clearly articulating points value to incentivize return shoppers
- Simplify the MLM redemption process
- **KPI:** MLM Redemption

MyLowe's Rewards Digital Experience Relaunch

Goal

Repurpose new MLPR components to use for MLR; user experience parity

Timing

April 16

Out of Scope for Today

- In-store MLM redemption screens
- Full account creation at ACO

Scope

Combined Account & Loyalty Dashboard

- **Problem statement:** Members must navigate two separate pages to get a full picture of membership

Rewards History Page

- **Problem statement:** Members have no line of sight into how they are earning points.

Member Deals Page

- **Problem statement:** Members must navigate multiple pages to view Member Deals, Points Boosters and Coupons

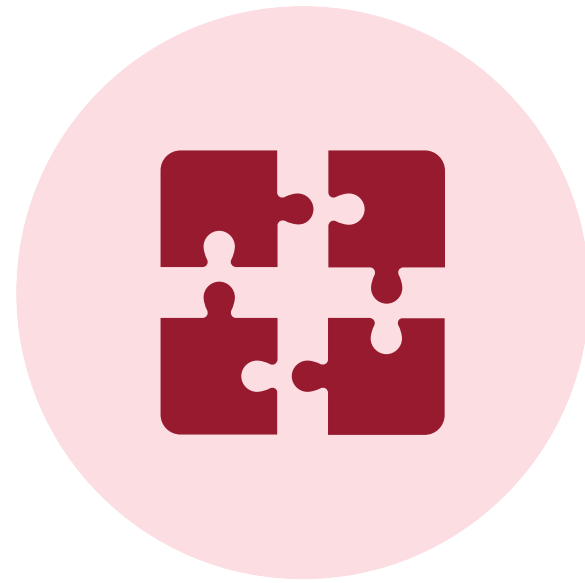

MyLowe's Money

- **Problem statement:** Members are still getting used to MLM and learning how to use it, leading to lower redemption

Customer Journey

- **Problem statement:** Make loyalty features and benefits easier to access throughout digital journey

Primary Challenges

Information about our loyalty program is **scattered over multiple pages and is difficult to find.**

Customers must navigate to two separate pages to view their account settings, rewards and spending. Deals, offers, point boosters and coupons are all staged in different places.

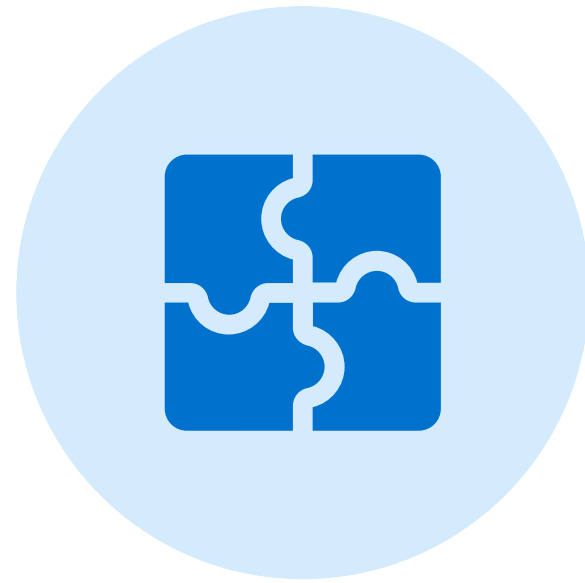

Rewards penetration is only at 30%. This means 70% of customers who enter our stores and shop online aren't taking advantage of benefits that are essentially free to them.

Redemption of MyLowe's Money, one of the main loyalty benefits for our DIY customers, **is well below the planned level.** This means that our customers are quite literally leaving money on the table.

Overarching Improvements

Improved Account Navigation & Loyalty Visibility

We've made loyalty synonymous with the account experience by combining the account and loyalty page into one, bringing easy access to customer's loyalty status as well as their rewards and settings.

One, Unified Place Customers Can Access Their Rewards

Member Deals, Offers, Coupons and Point Boosters are now accessible via a single tap, ensuring customers never miss a reward.

Automatic Application of MyLowe's Money

MyLowe's Money will be applied to customers' orders by default, reducing the number of interactions customers need to take to apply MLM to their purchases.

Account/Loyalty Dashboard

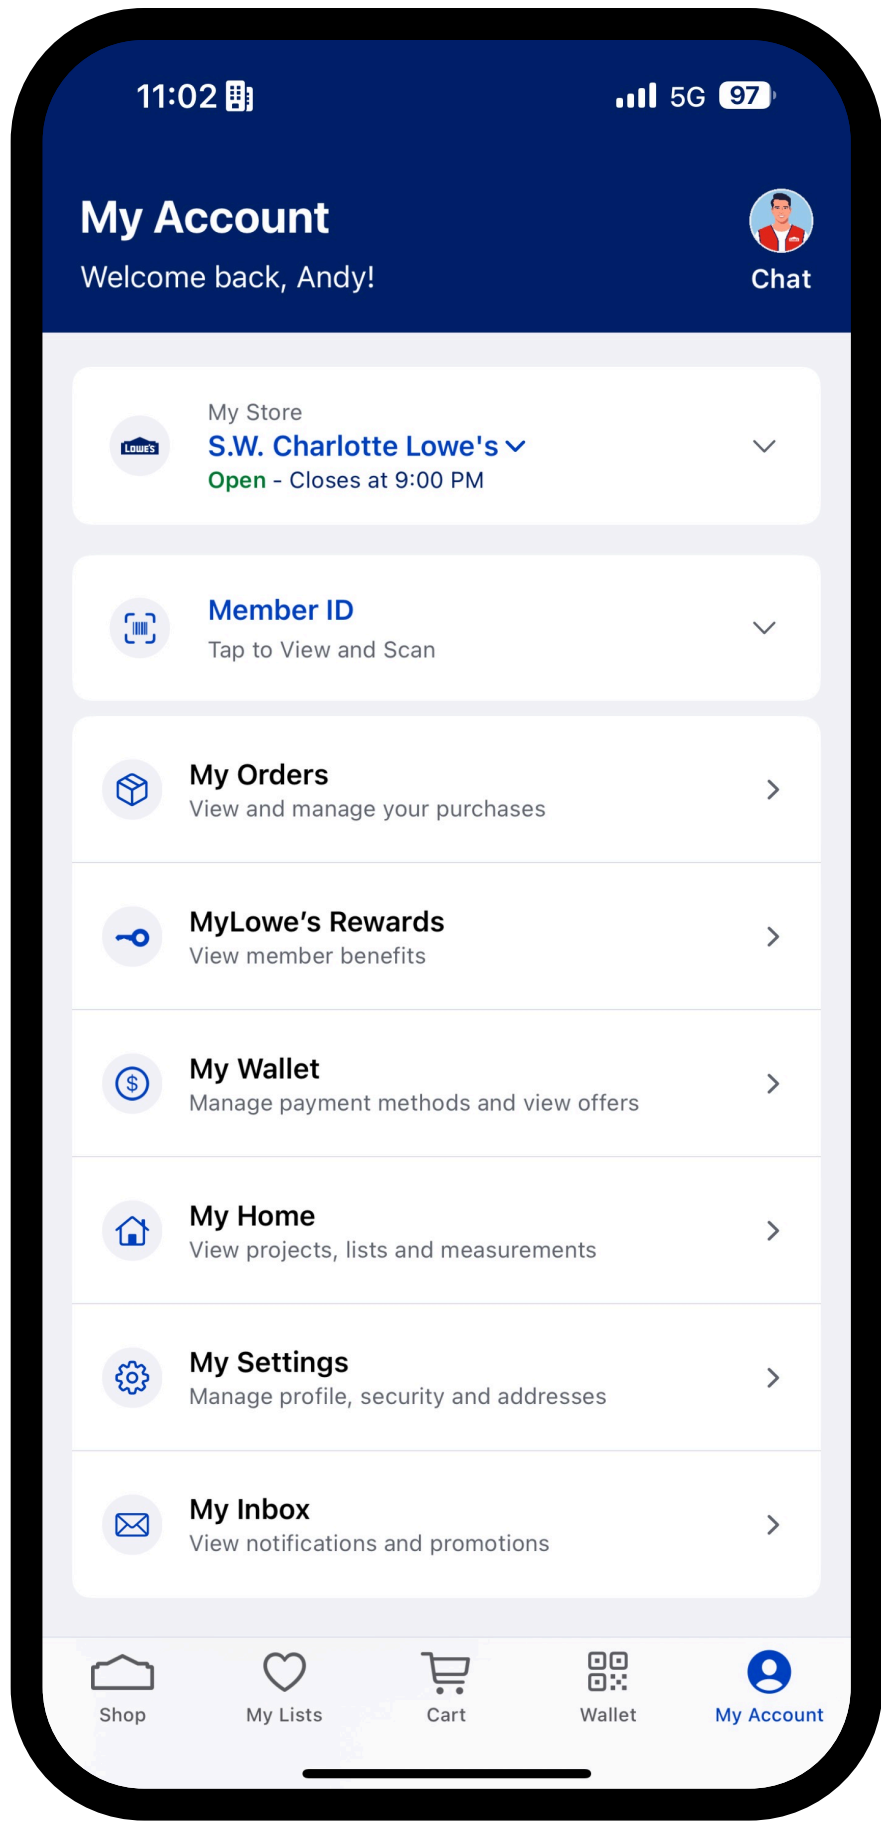

Account & Loyalty Dashboard – Centralized In A Single View

Problem Statement

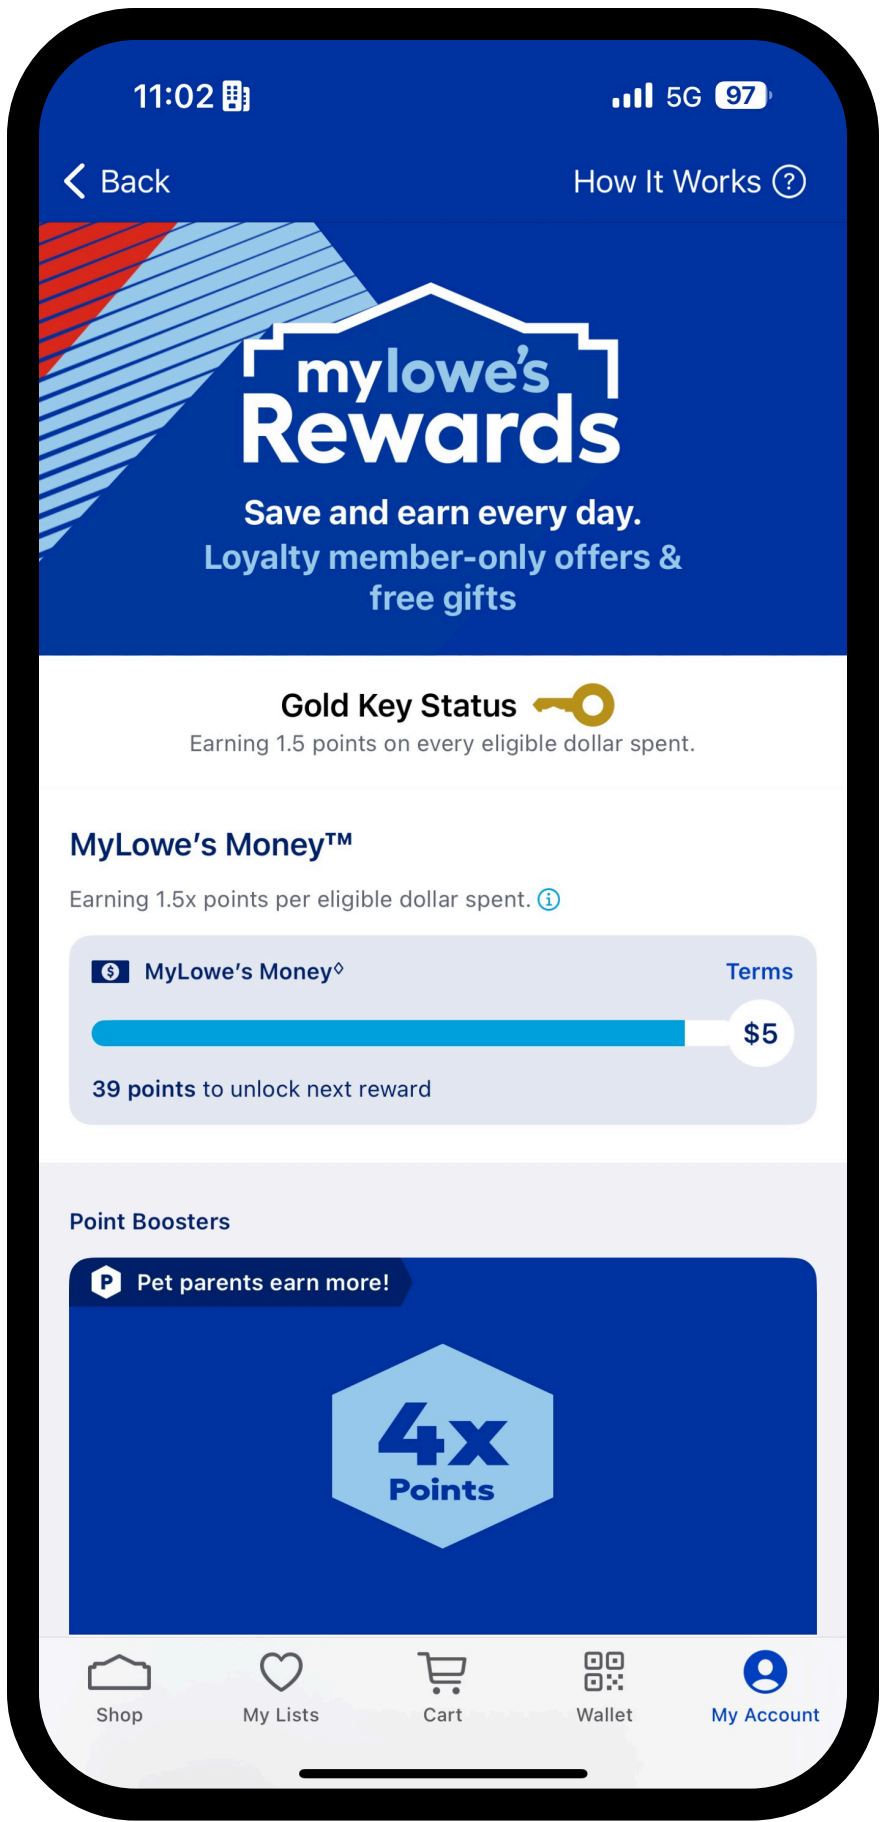

Currently, DIY customers must navigate two separate pages to view their account settings, rewards and spending.

Customer Solution

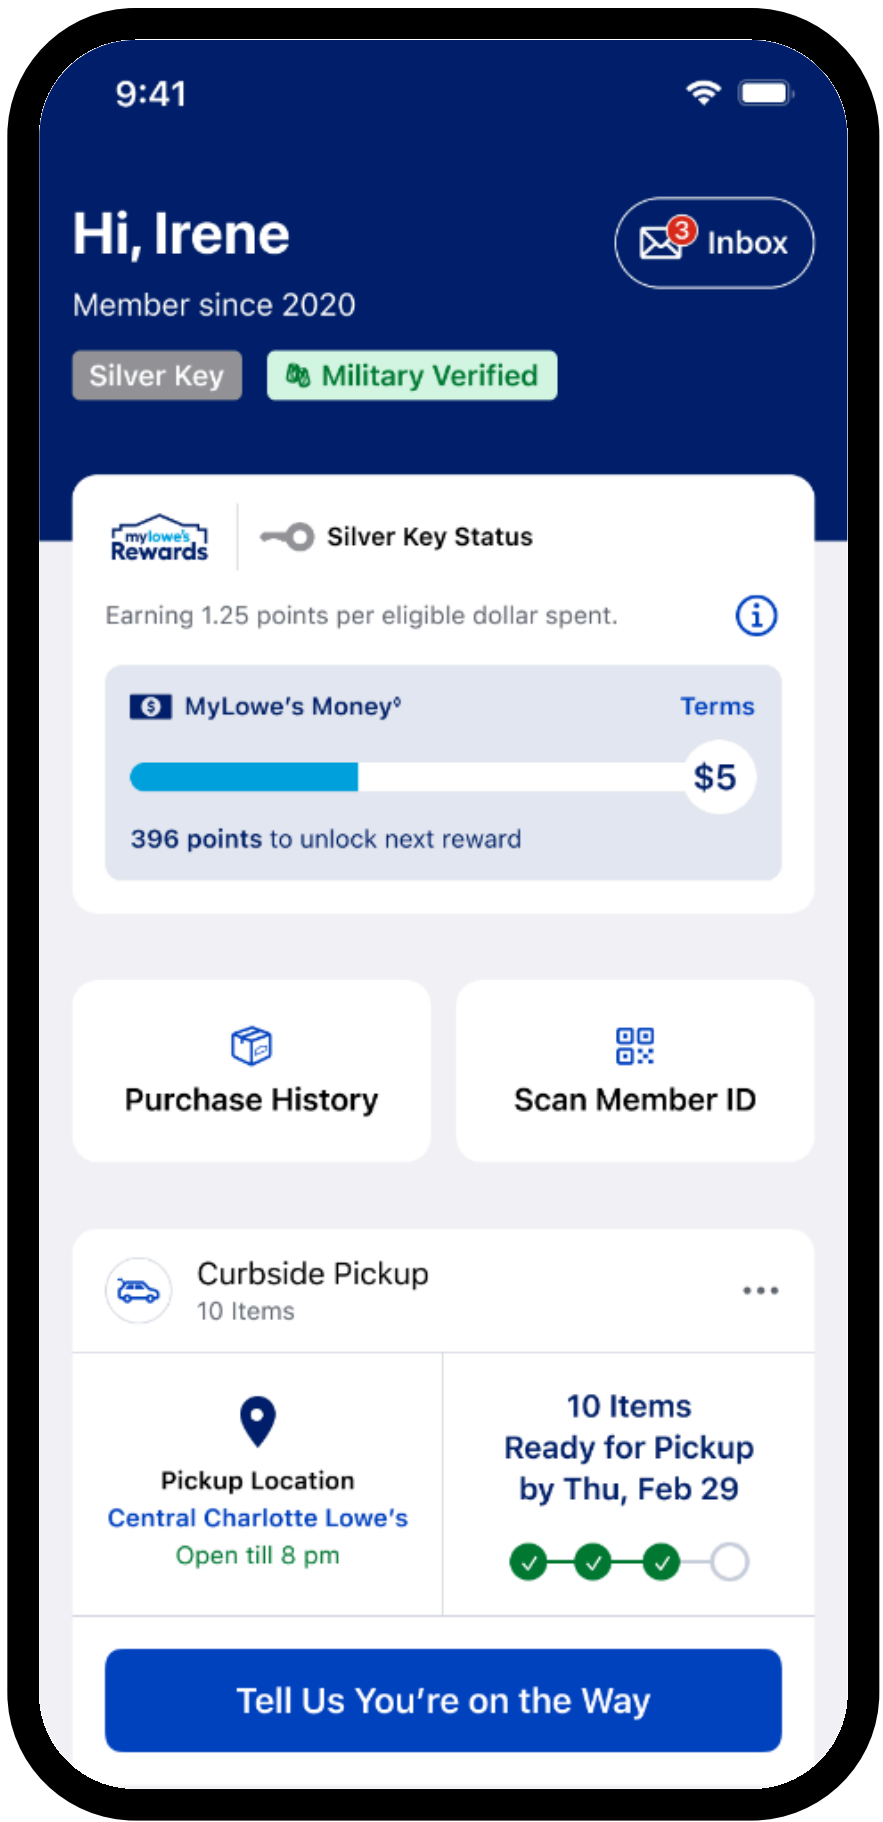

- Combining the account dashboard and loyalty page into one allows the customer to see all their important loyalty information directly from the main dashboard screen and drill deeper if they choose to.

Current Account Page

Current Loyalty Page

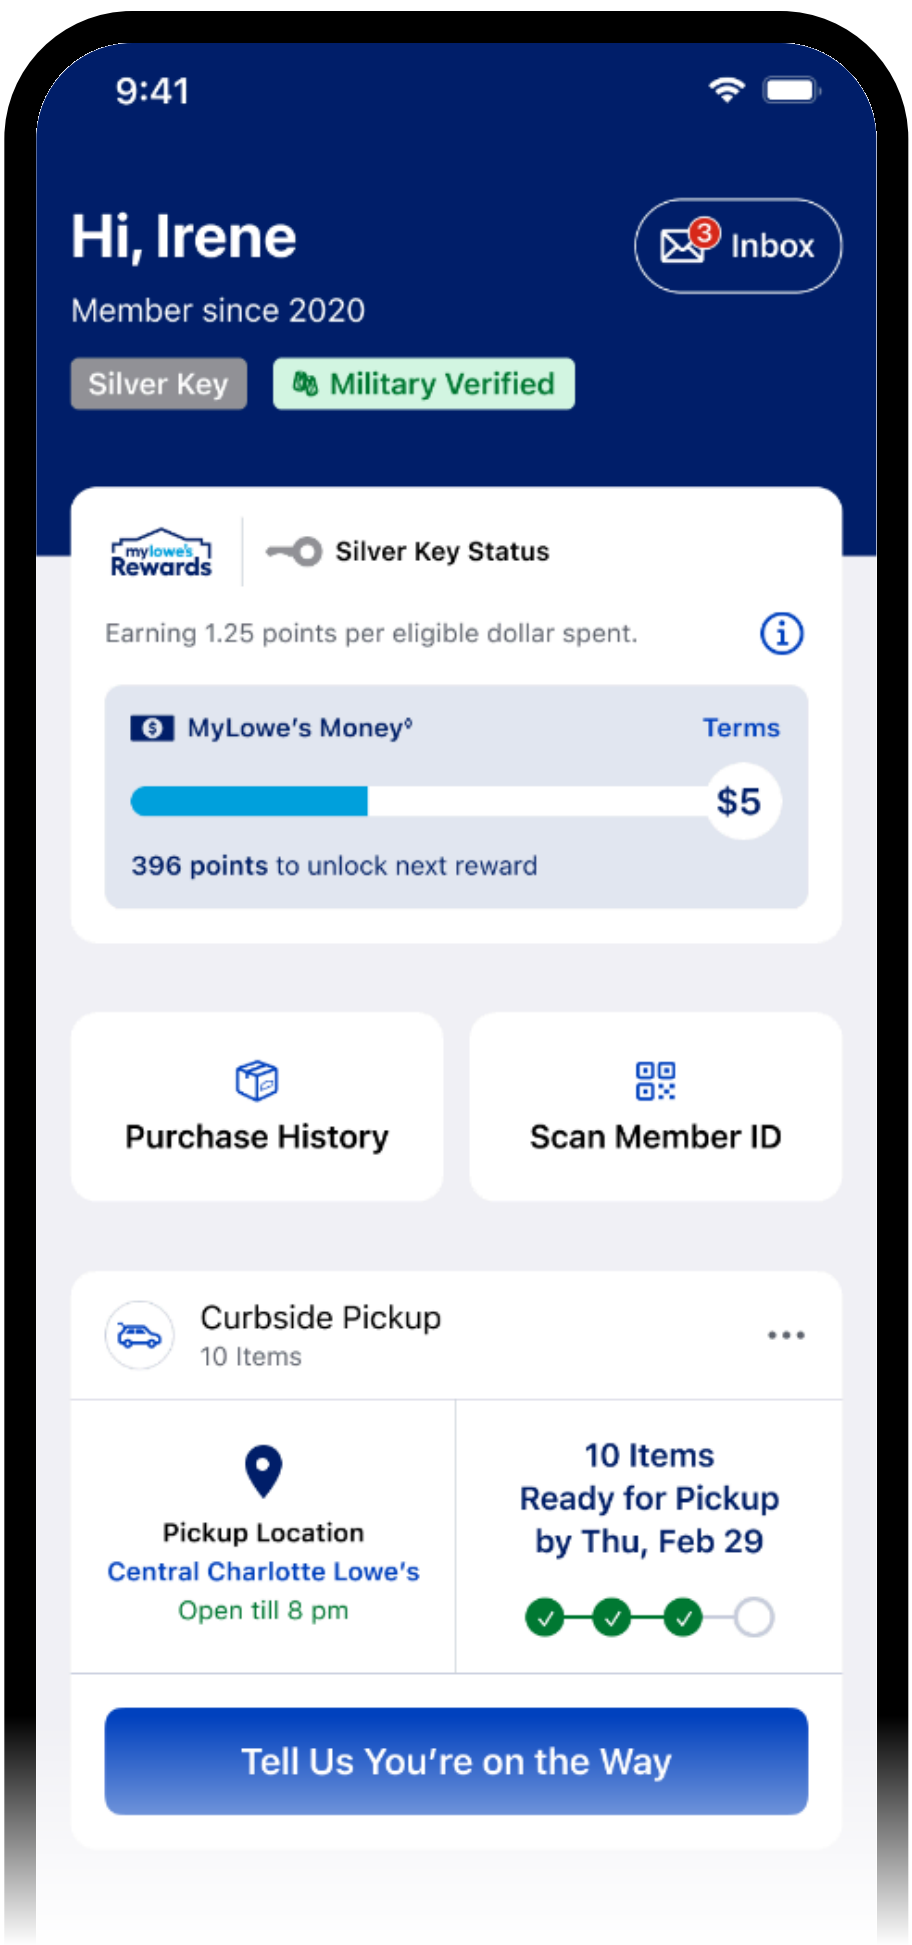

NEW Unified Account/
Loyalty Dashboard

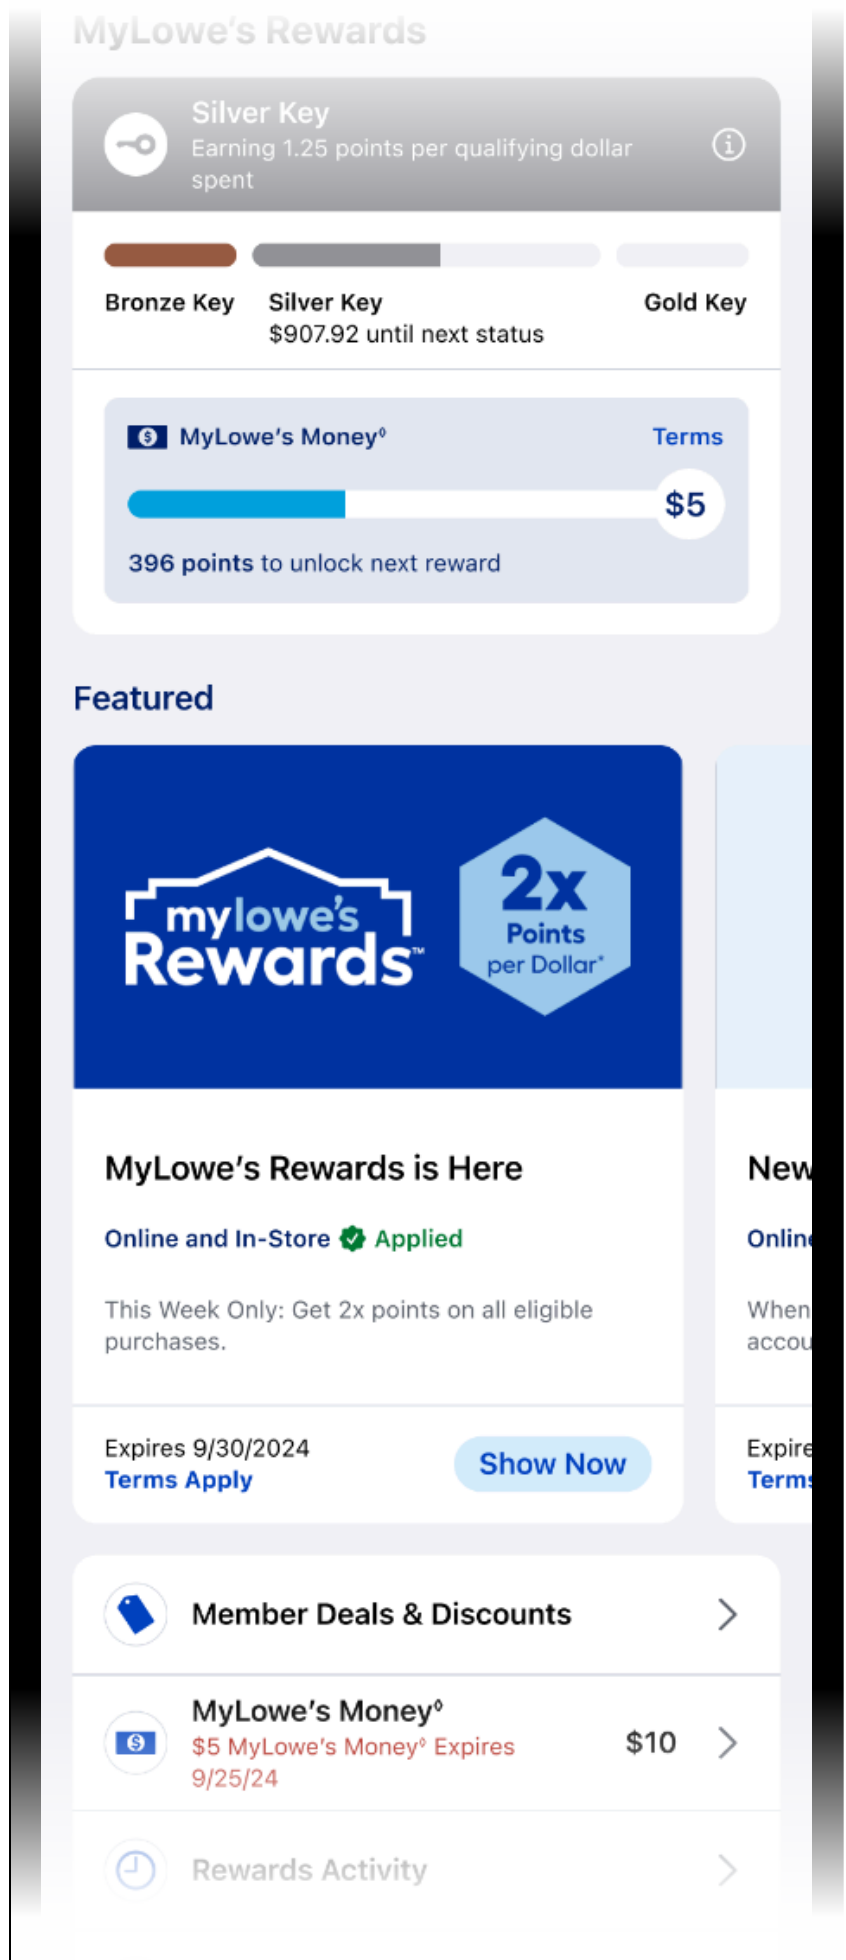

Account & Loyalty Dashboard – Focus on What Matters to the DIY Customer

Customer Solution

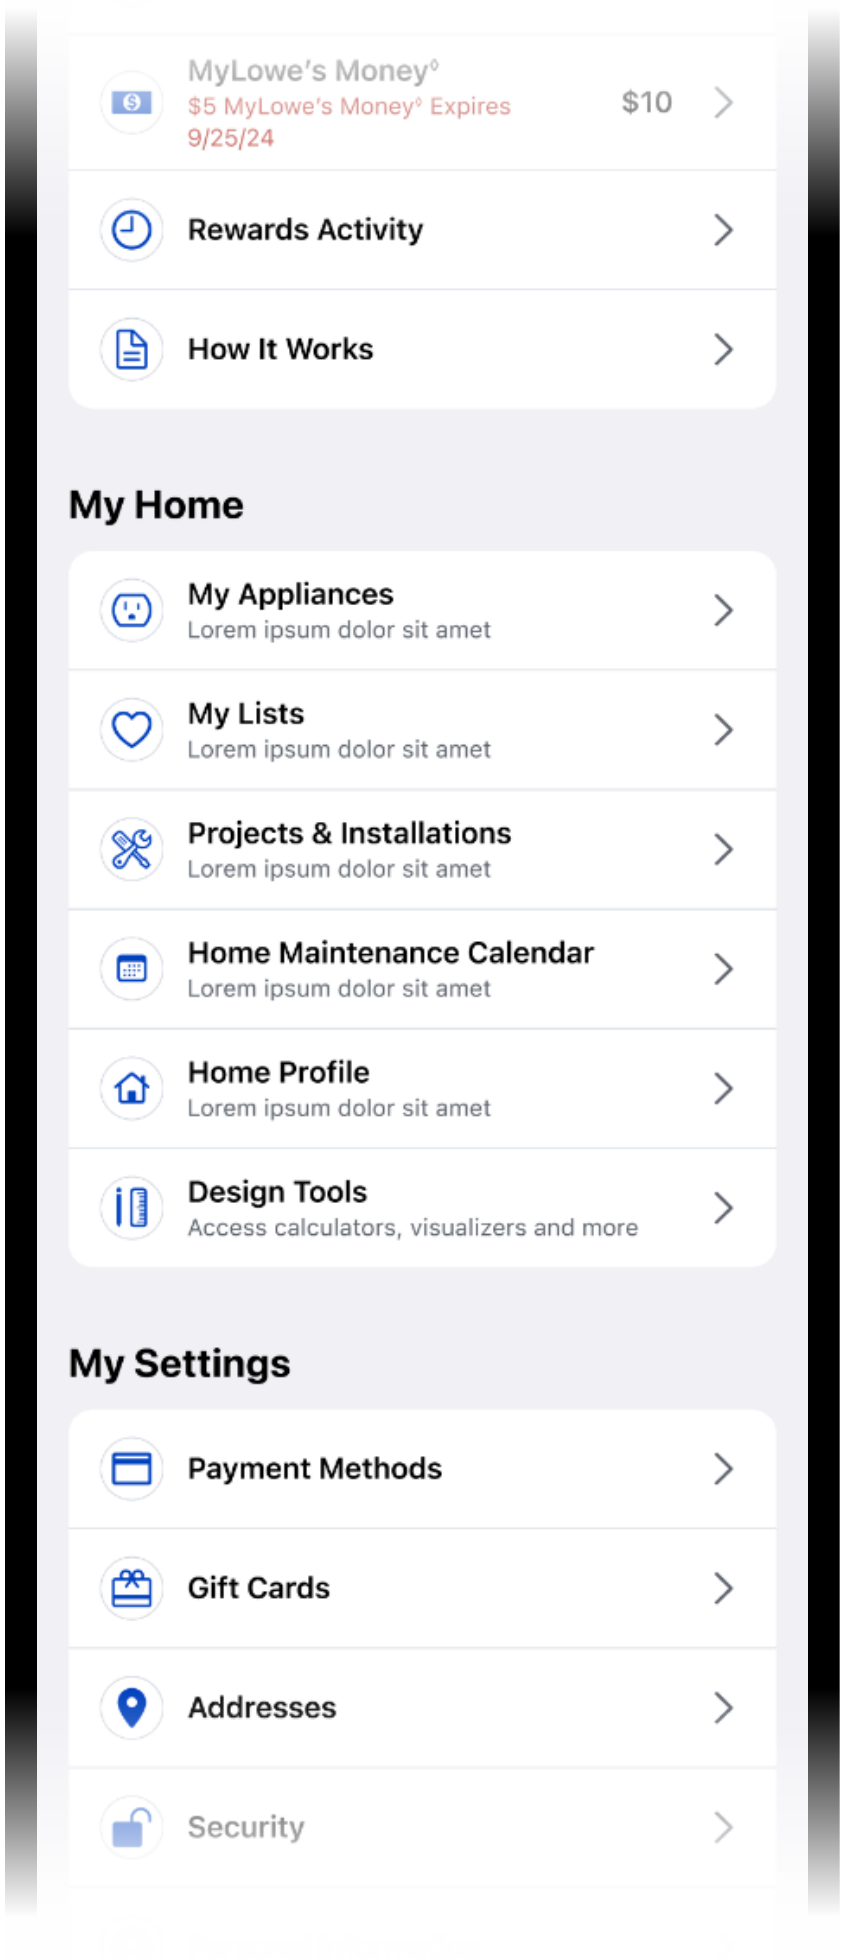

- Created a unified Inbox with action-oriented notifications
- Added Quick Links with easy access to Purchase History
 - 30% of customers visit their account to view purchase history
- Display relevant member deals & discounts
 - 10% of customer visit their account to view their rewards & offers
- Updated navigational links into sections organized by topic

Rewards Activity

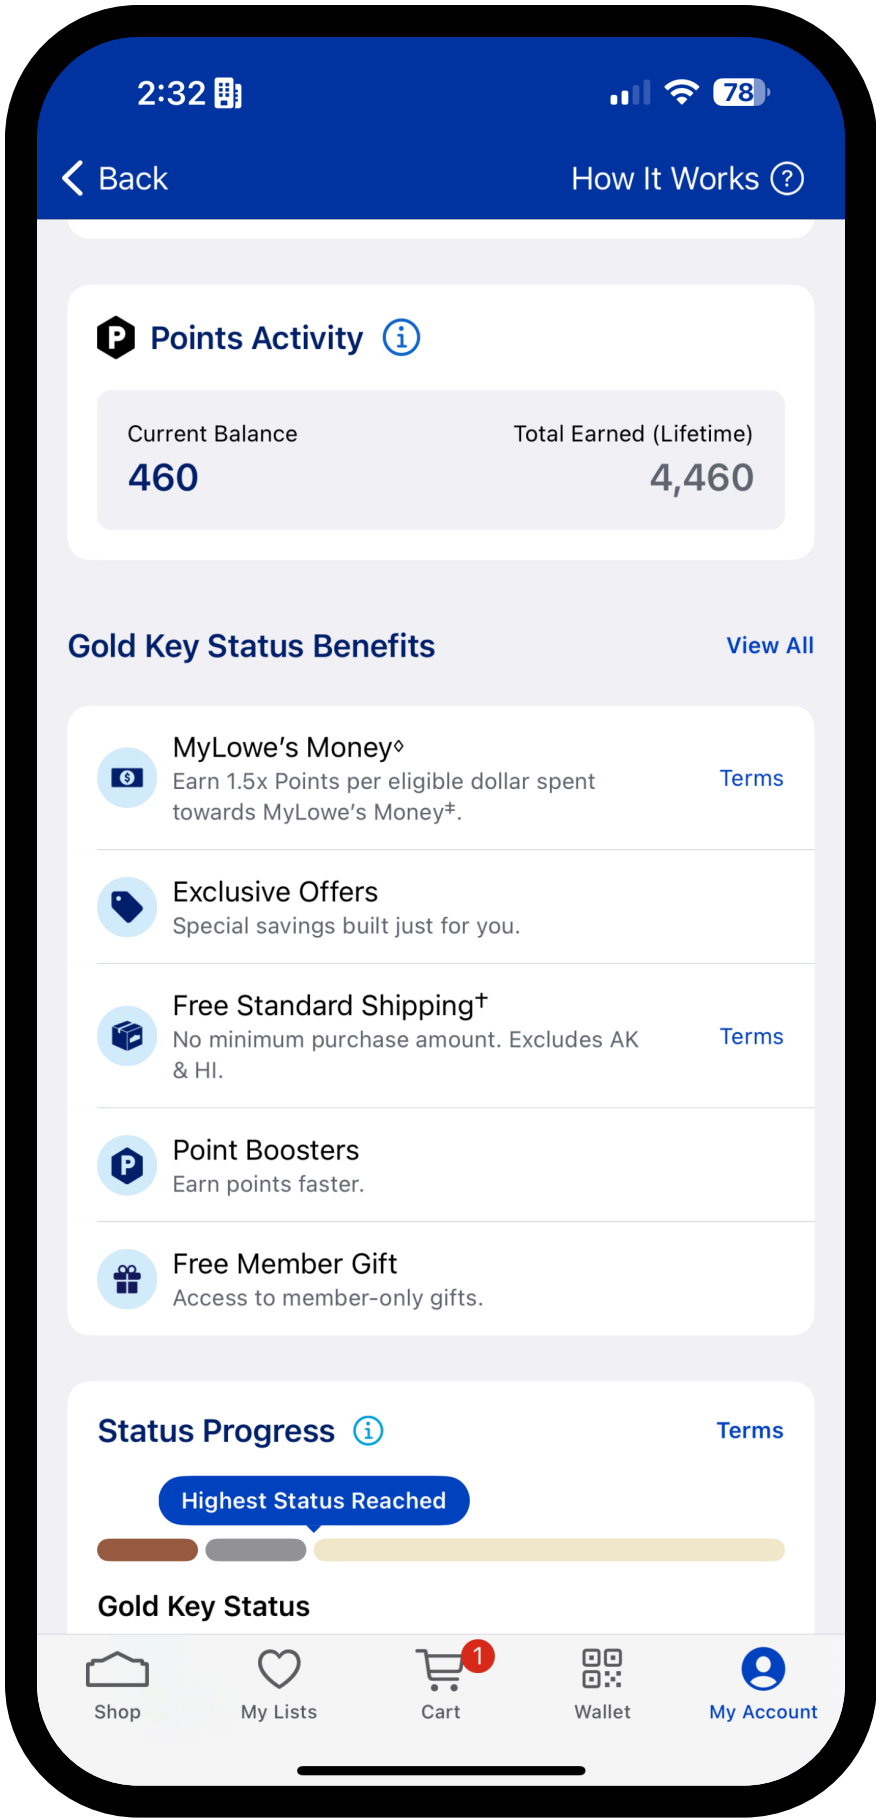

Rewards Activity – NEW for MLR

Problem Statement

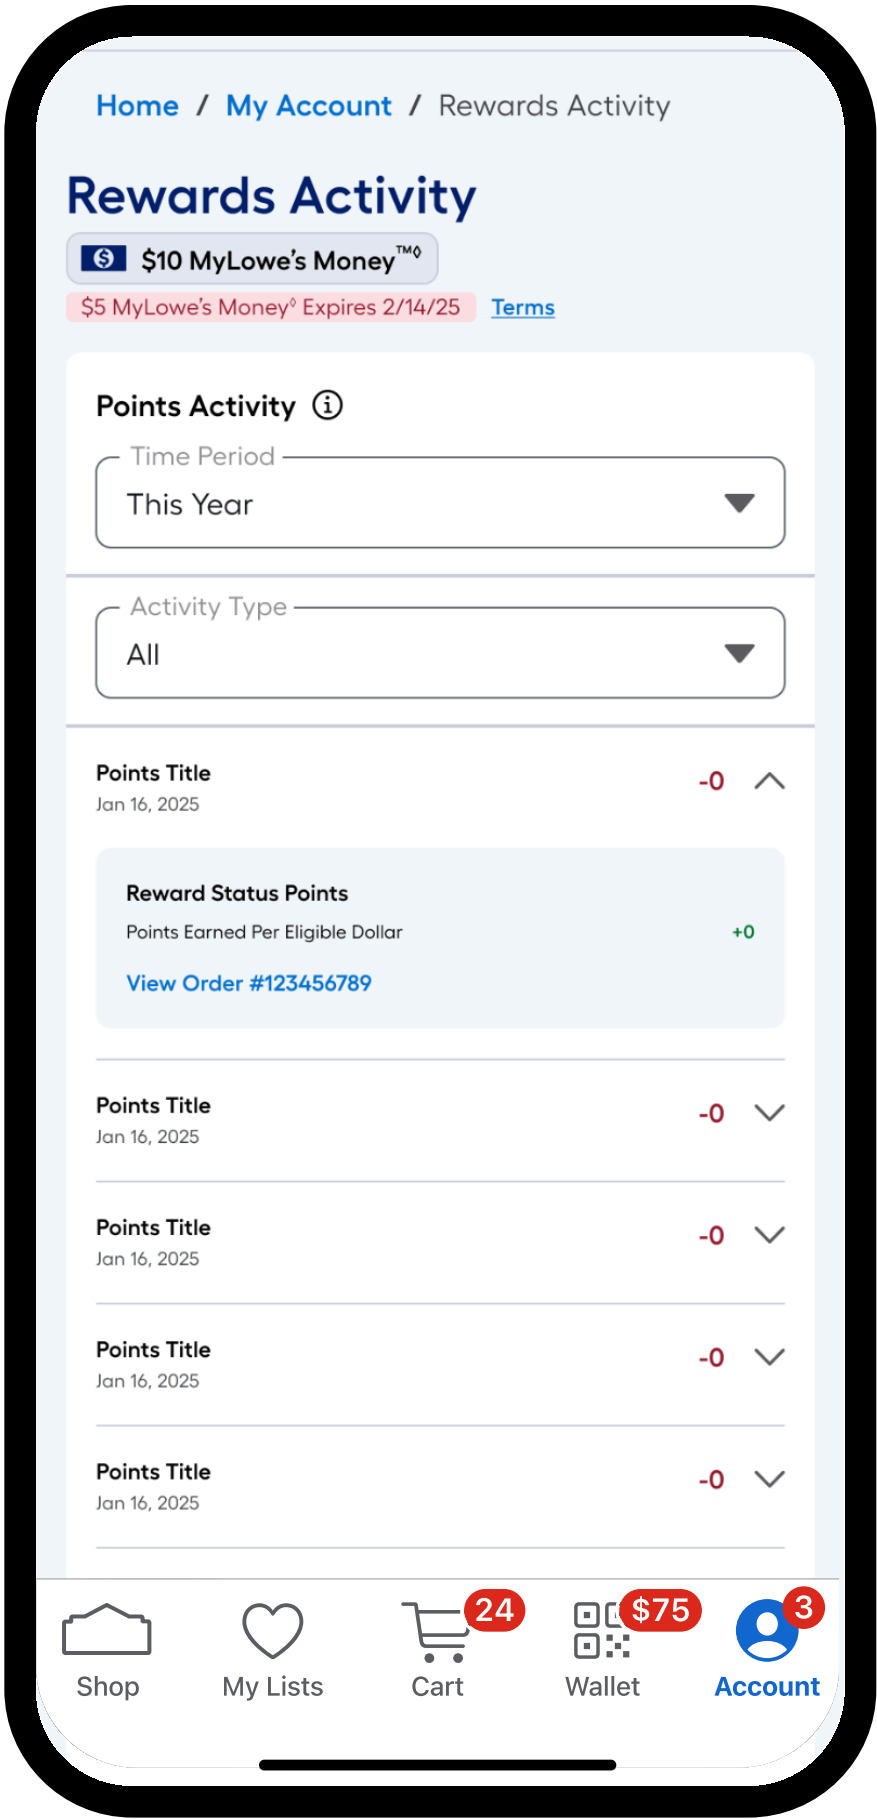

DIY customers have no insight into the points they are earning and why, resulting in a high volume of contact center calls.

Customer Solution

- Reuse the Rewards Activity component from MLPR and build a new page that provides transaction-level detail regarding points earned, point boosters

Points Activity (Shown on Current Loyalty Page)

NEW Rewards Activity Page for DIY

MyLowe's Money

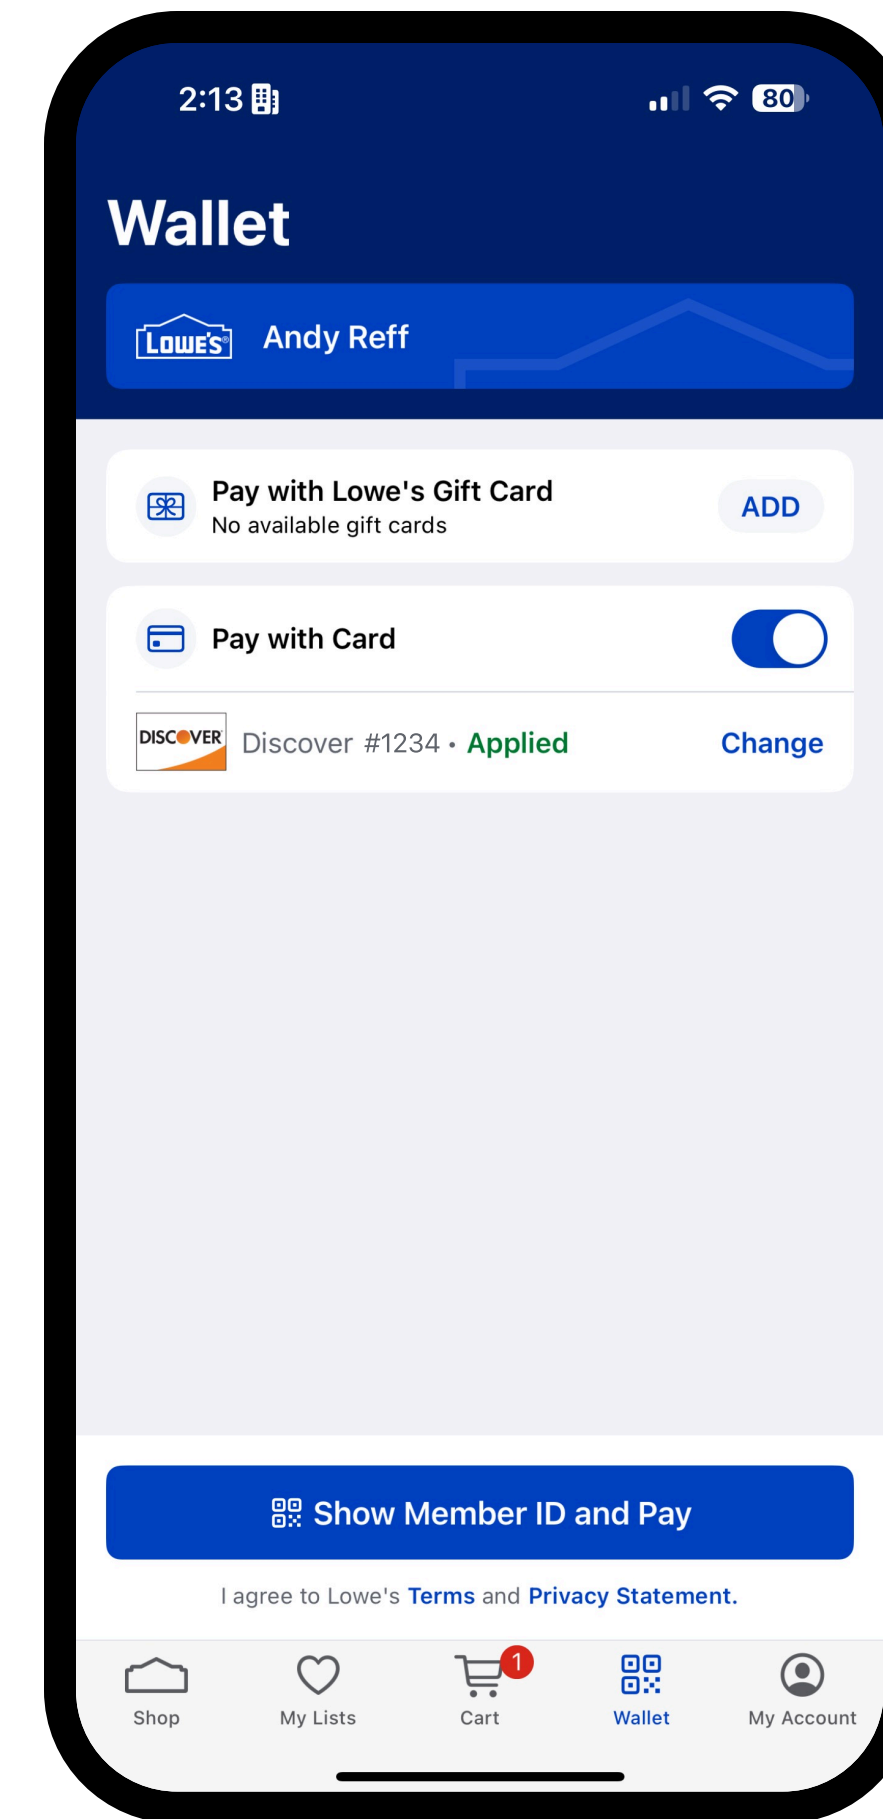

Using MyLowe's Money – Streamlined Redemption

Problem Statement

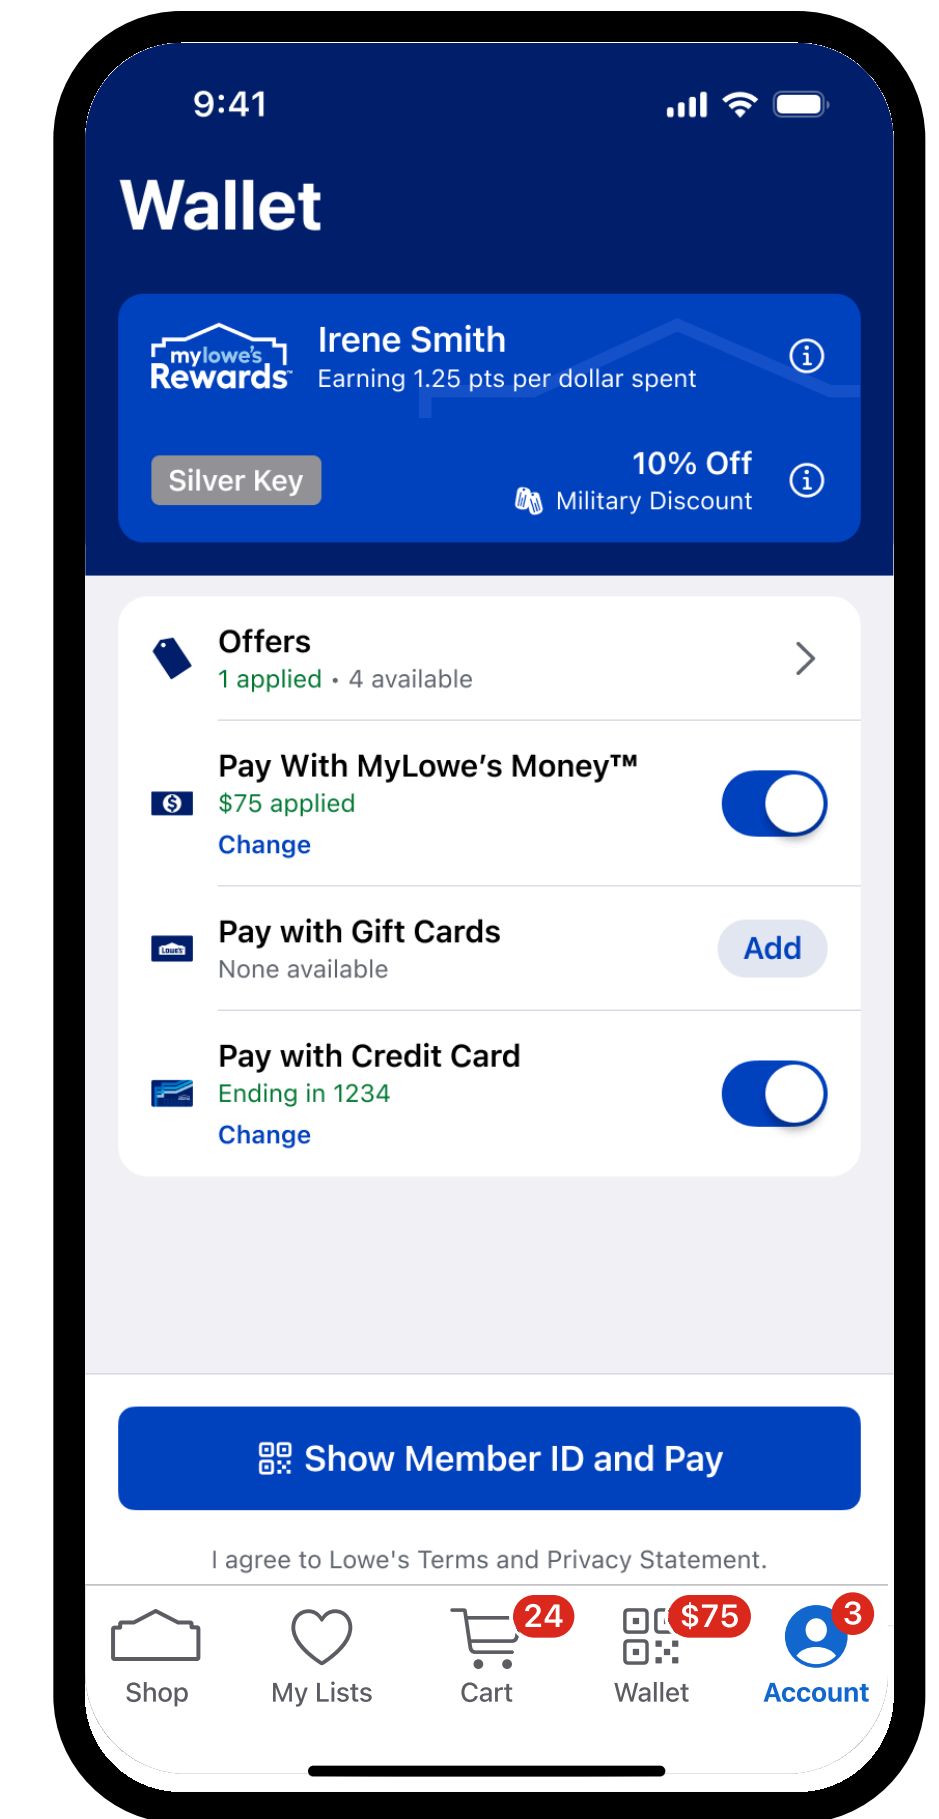

Customers were facing challenges in locating and redeeming MLM, leading to confusion and frustration.

Customer Solution

- Customer will always be able to see their MLM balance from the App tab bar at the bottom, agnostic of their location.
- In the wallet and checkout, MLM will automatically be applied if available.
- If a customer doesn't want to use their balance of MLM, they are able to toggle off the method, or go to a list of their available MLM and check/uncheck which they would like to use.

Current Wallet Page

Updated Wallet with
Auto-application of MLM

Member Deals & Discounts

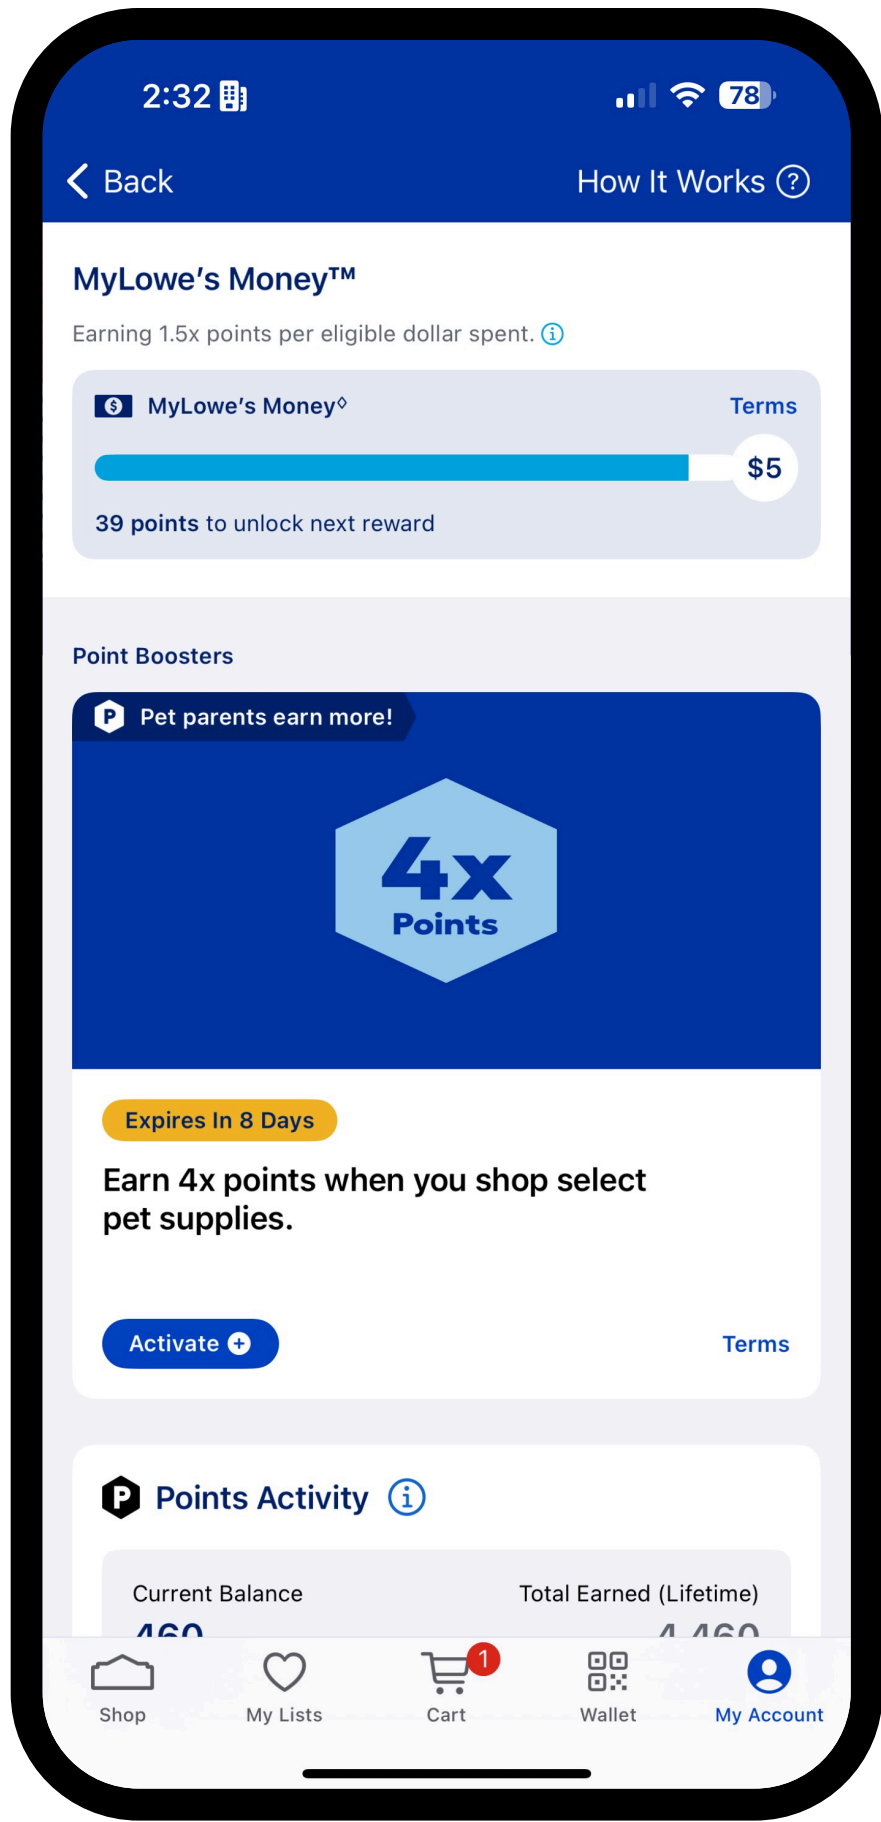

Member Deals & Discounts – A Single Place for Accessing Offers

Problem Statement

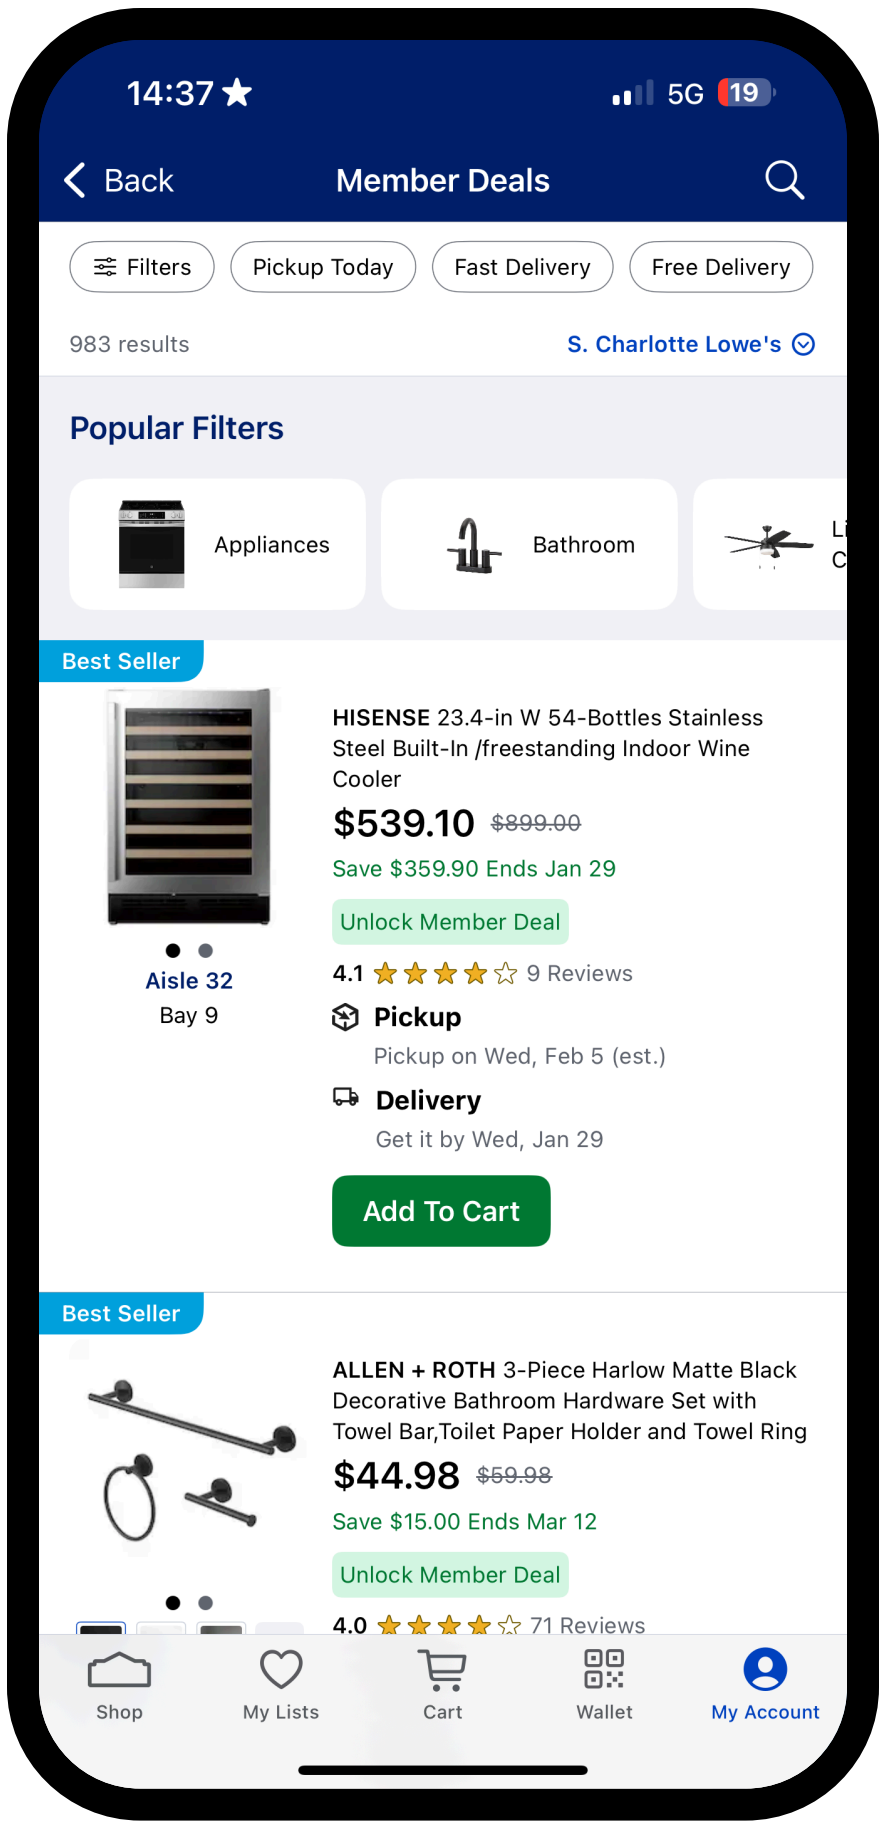

Customers must navigate to multiple landing pages to find available deals.

Customer Solution

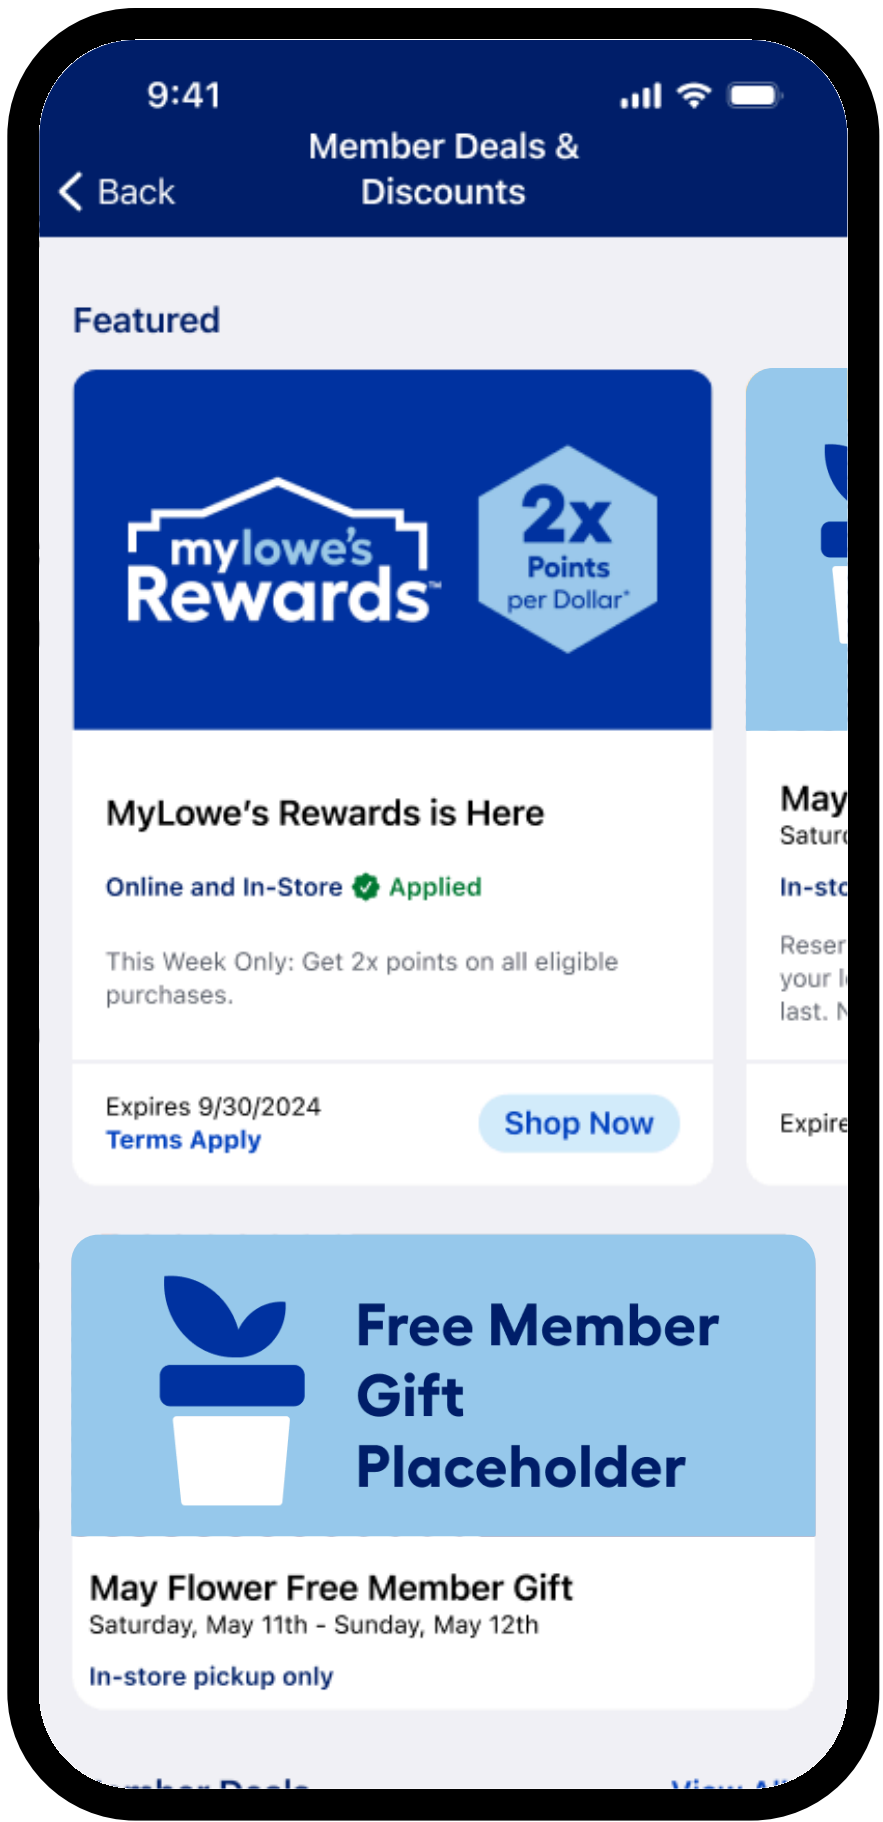

- Member deals, offers, coupons and point boosters are all accessible via a single link from the Account/Loyalty dashboard, making it easier for customers to find and use them.

Loyalty through the Customer Journey

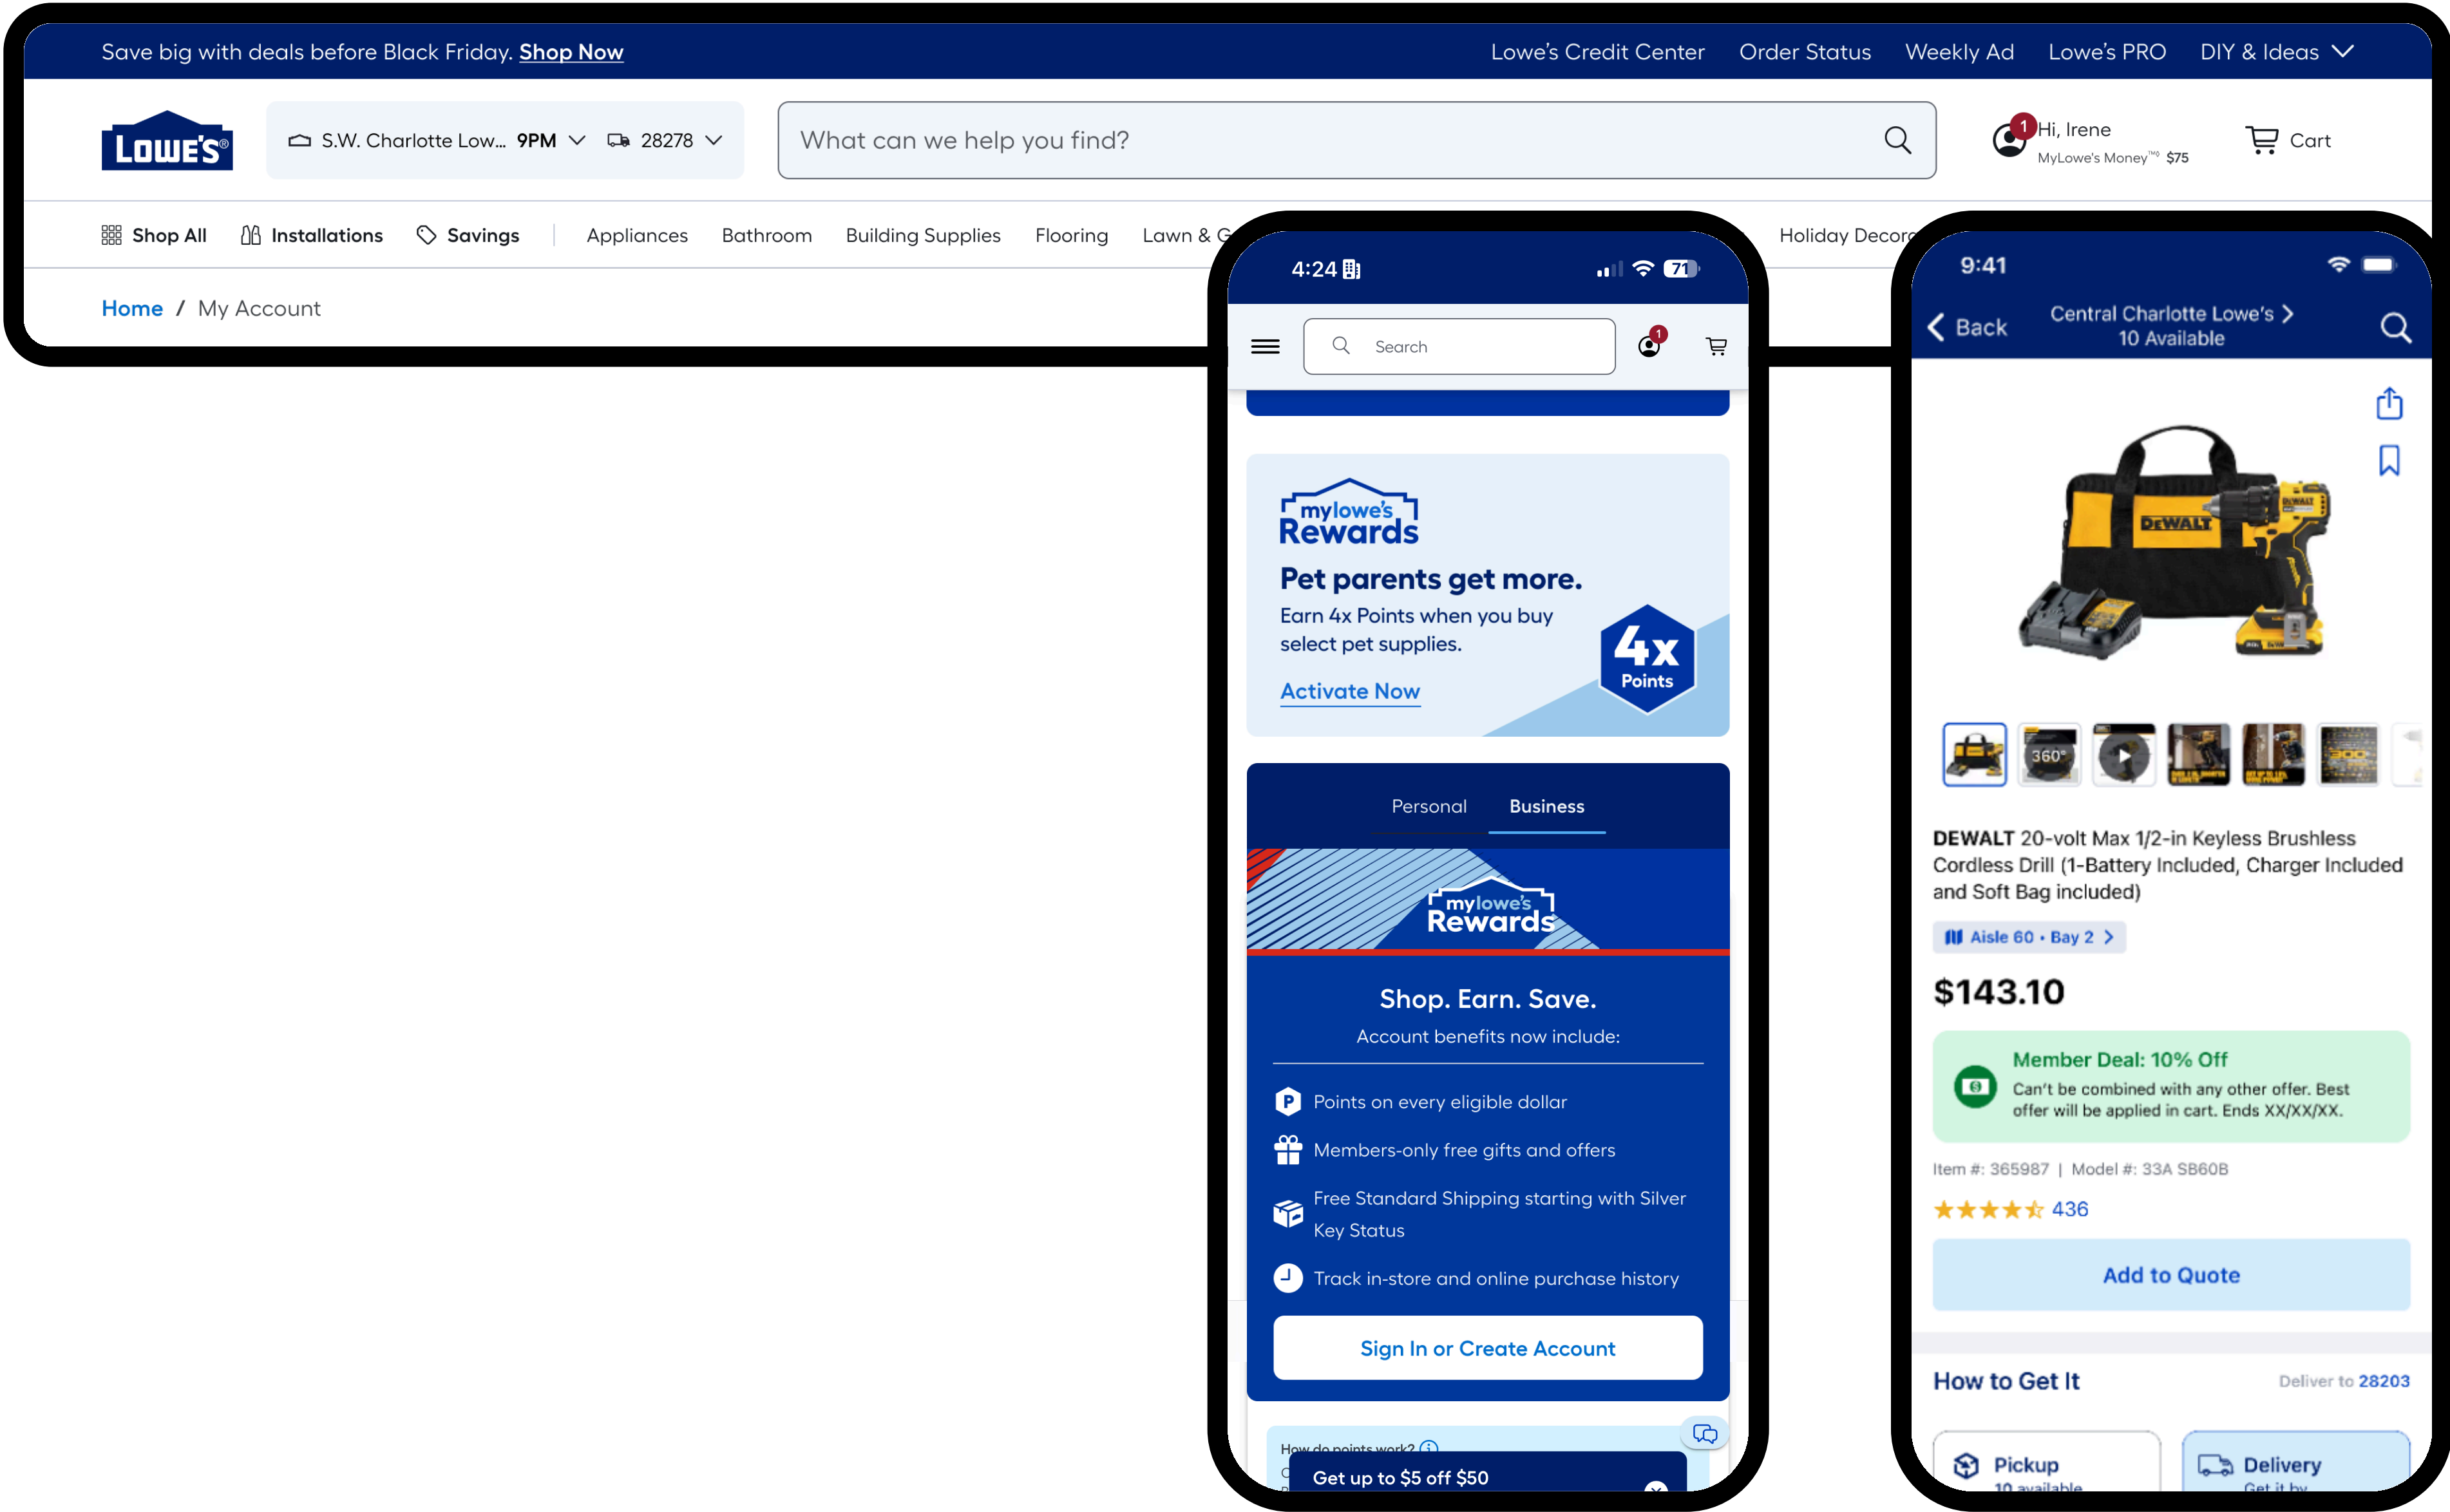

Loyalty User Journey

Problem Statement

Loyalty is fragmented across the customer journey resulting in a lack of awareness regarding the value and benefits.

Customer Solution

- Loyalty is seamlessly integrated into the experience, highlighting the value we offer our members.

What's Next!

Out of Scope/Next Big Ideas

“My Total Savings”

Show lifetime savings from loyalty benefits; 5% MLRCC, Military, Member Deals, Free Shipping, Free Member Gifts

Workshops & Events as MLR Benefit

Build a workshop and events carousel within dashboard to convey in-store experiences as well as loyalty benefits.

Redesign Free Member Gifts Experience

Evolve Free Member Gifts experience

Partnership Component

Build a dedicated partnership widget to house and showcase available partnerships

MyLowe's Home and Paid Loyalty Integration

Build a seamless integration of new loyalty initiatives into the redesigned digital member experience

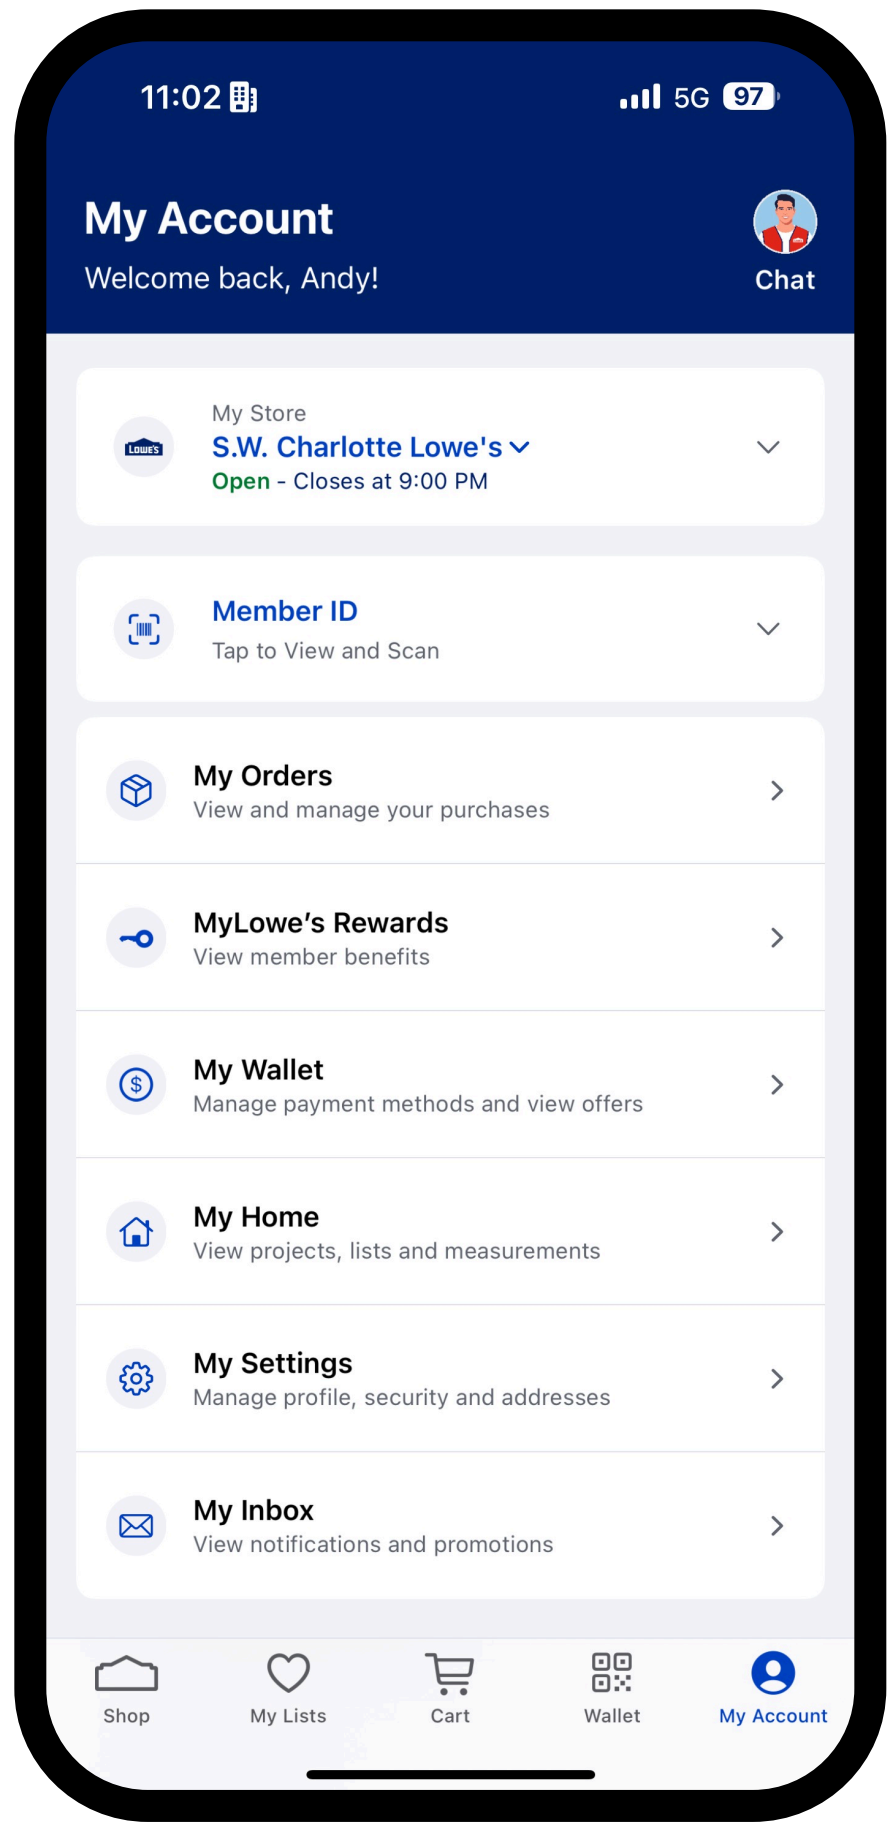

Thank you!

Appendix

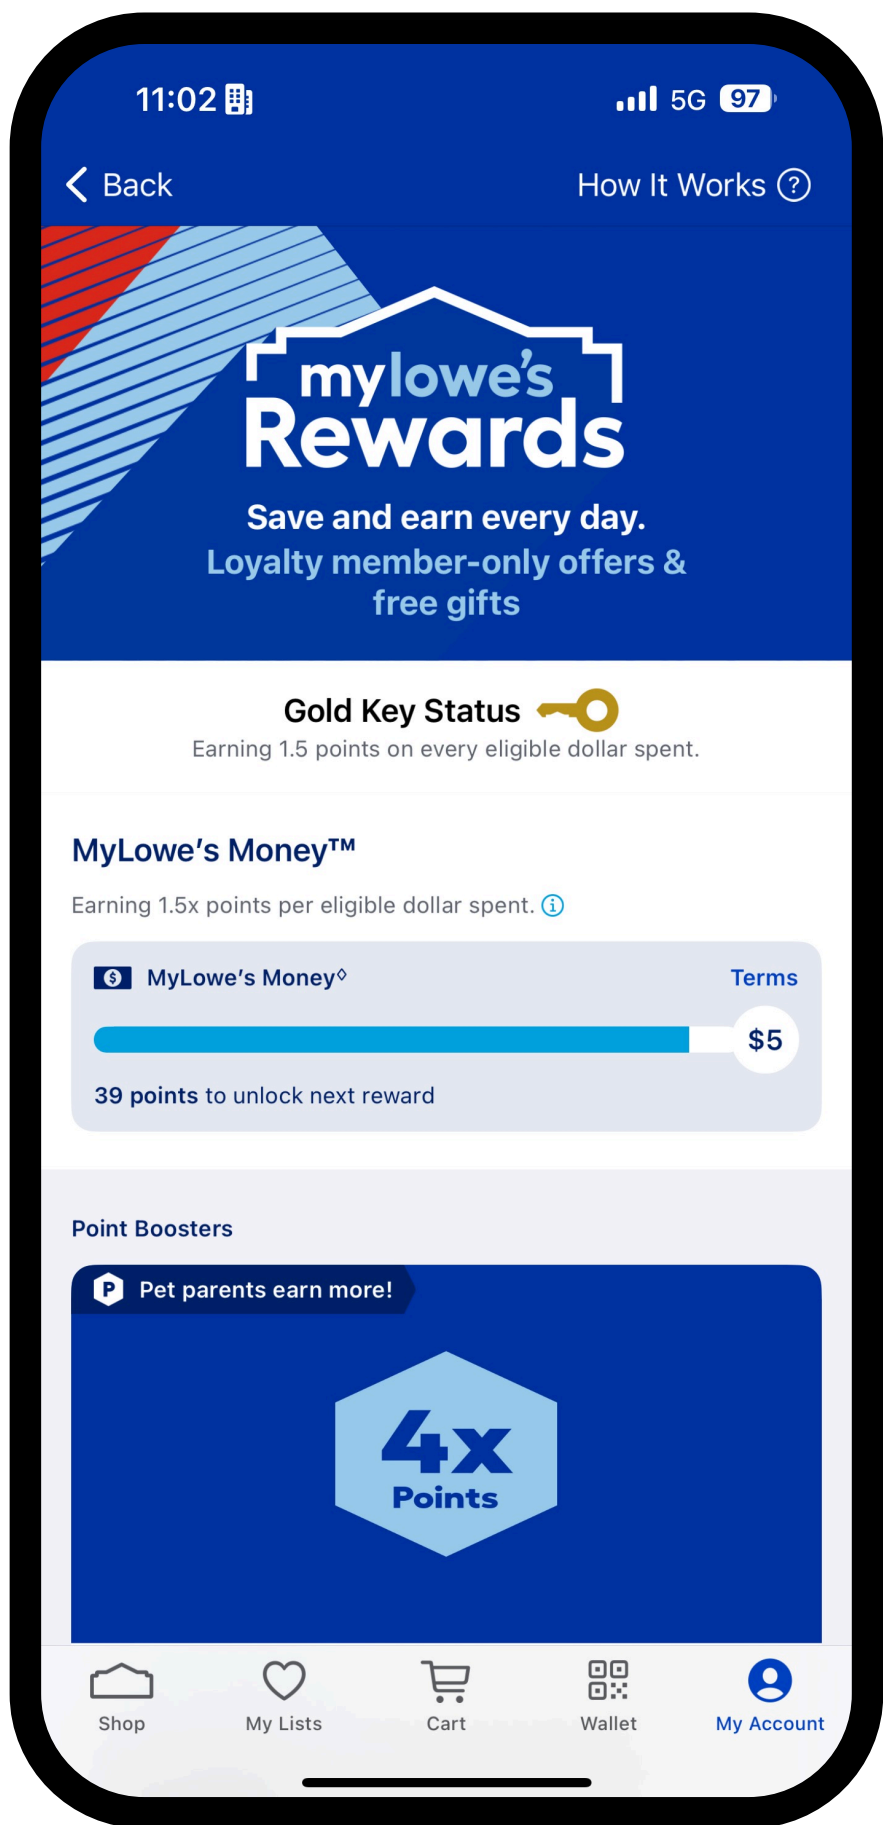

Account & Loyalty Dashboard – Centralized In A Single View

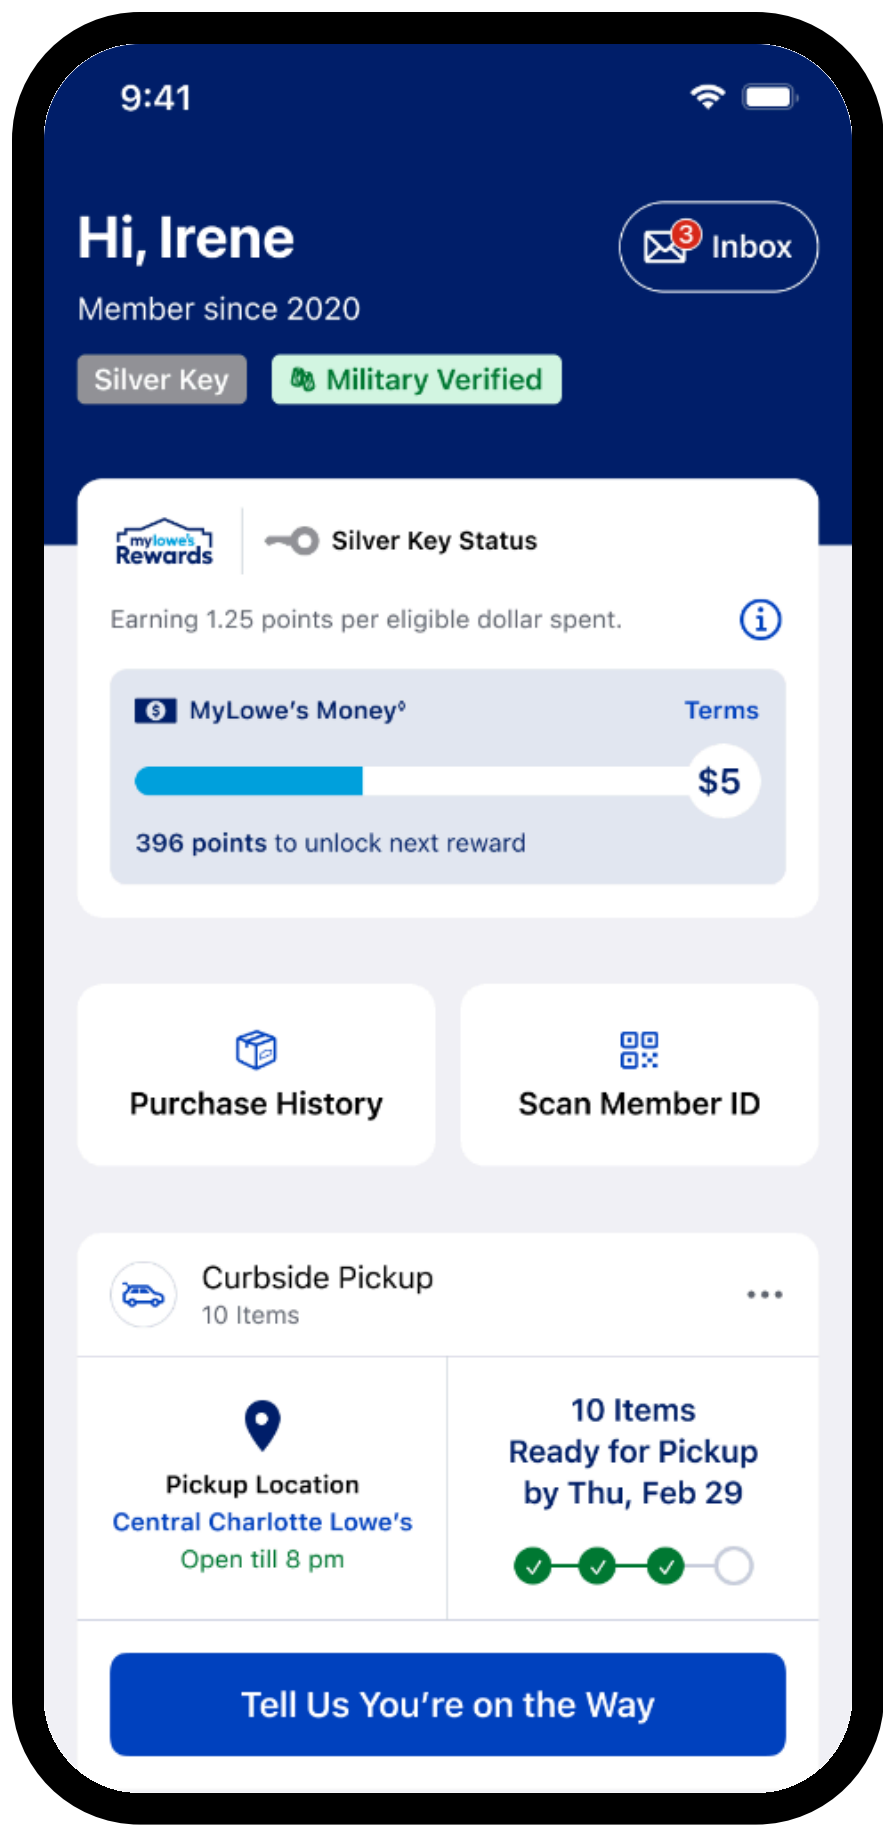

Account (Current)

+

Loyalty Dashboard (Current)

=

New Unified Account

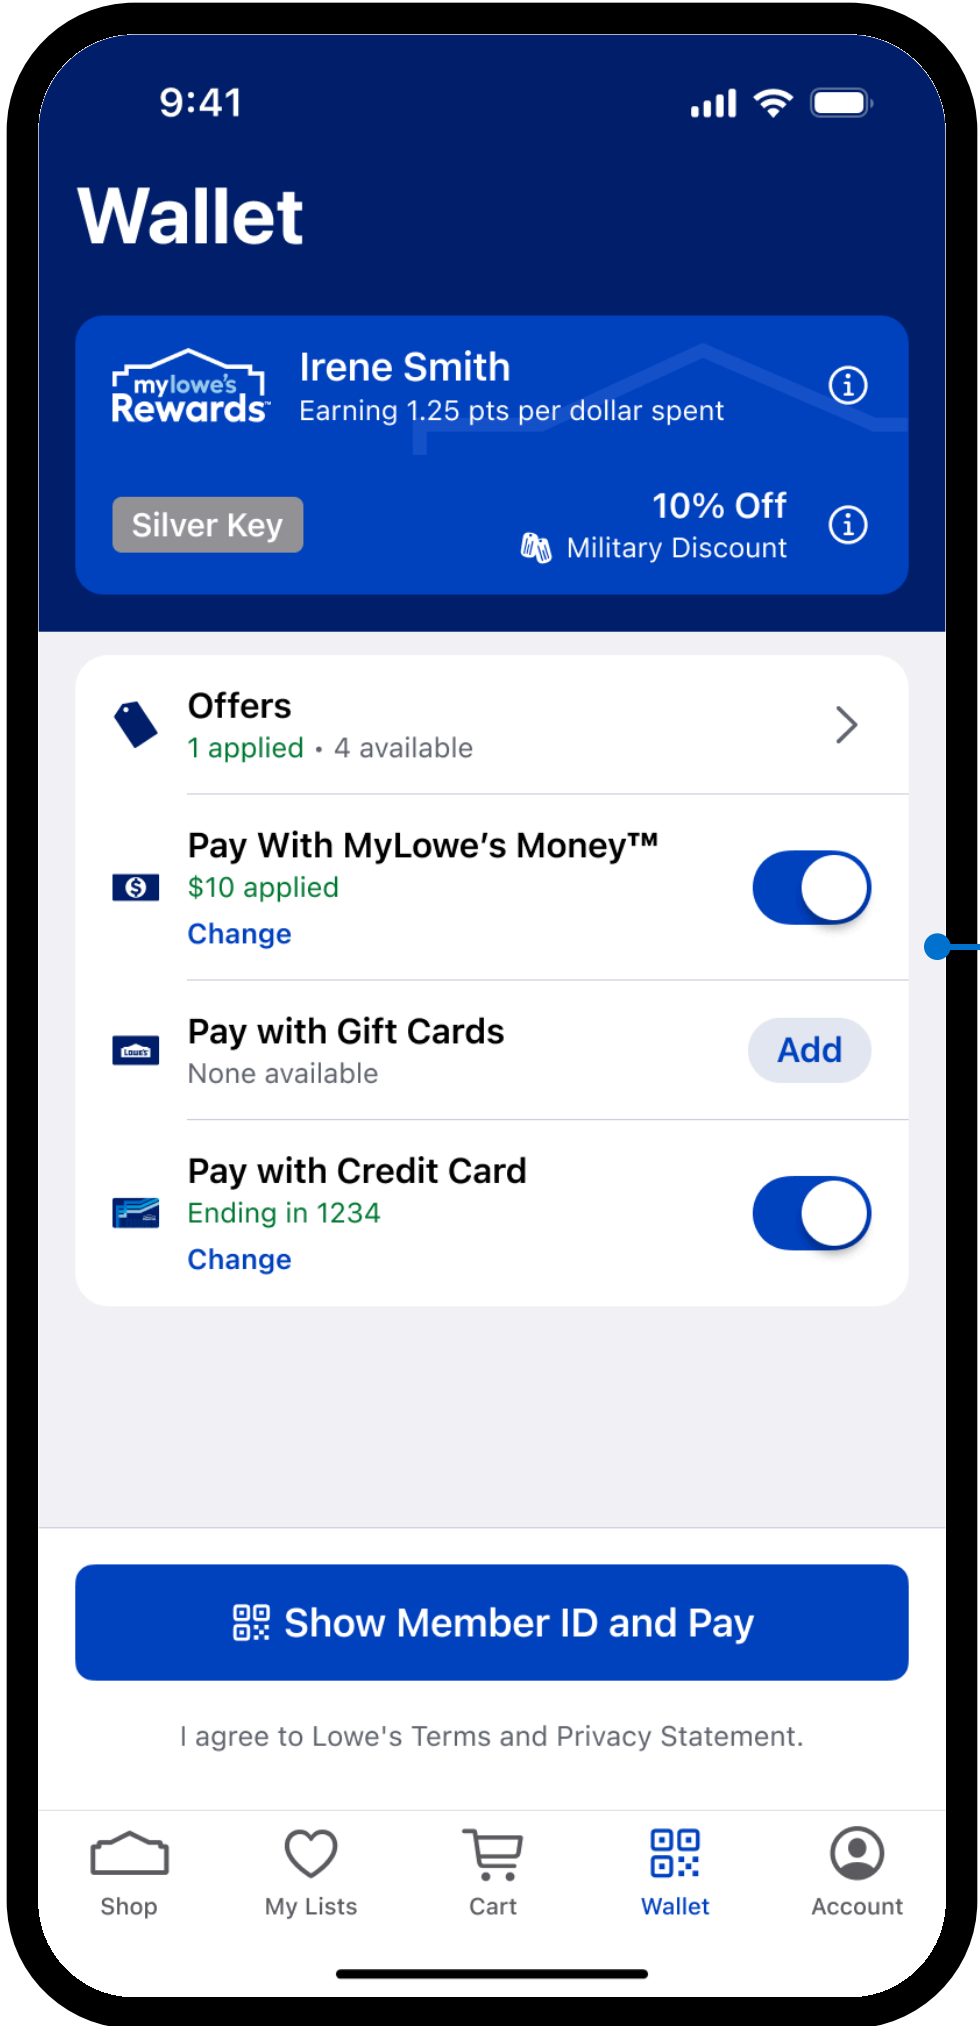

Before, DIY customers must navigate two separate pages to view their account settings, rewards and spending.

Now all in one

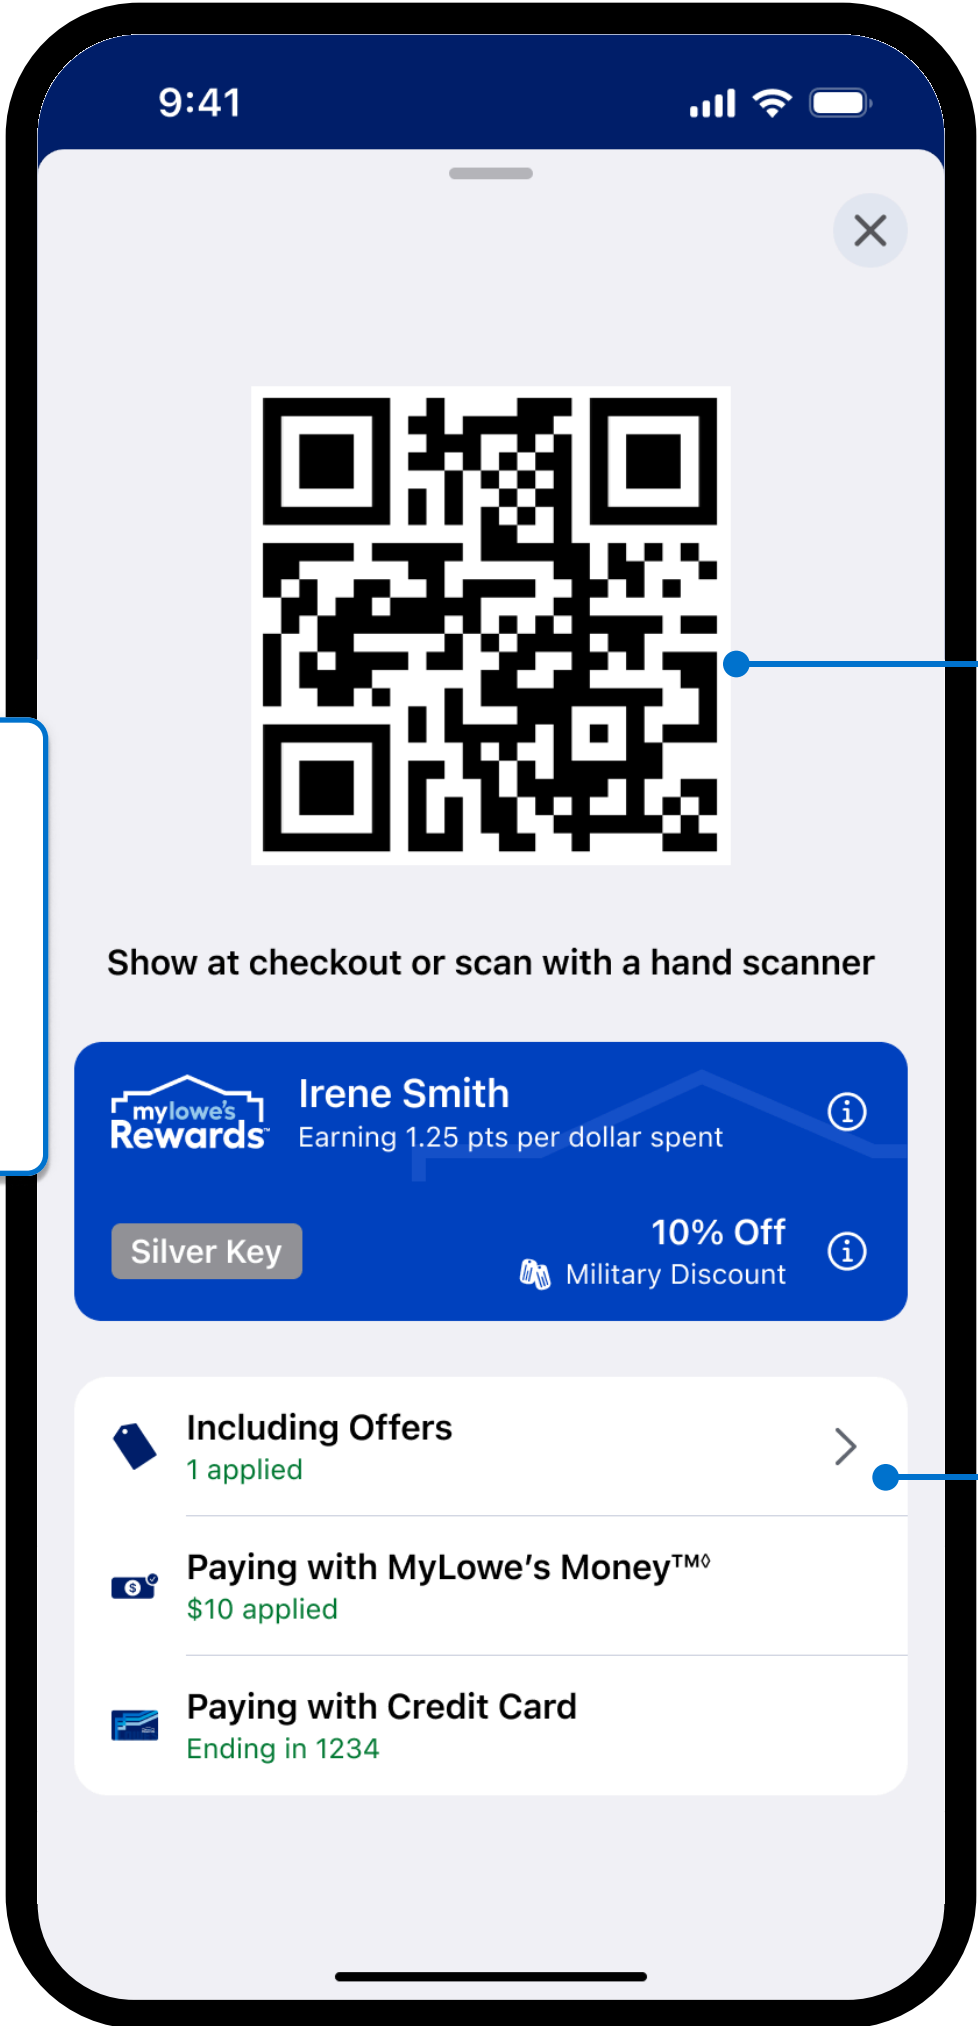

MyLowe's Money

Problem statement: It was hard for customers to access and redeem available MLM

- In the wallet, available MLM will automatically be applied if available.
- If a customer does not want to use there balance of MLM, they are able to toggle off the method all together, or able to go in to a list of their available MLM and check/uncheck which they would like to use.

Wallet

Scan Member ID

Paying with MyLowe's Money is applied by default, and customers can change the amount they'd like to apply to their order or turn it off if they prefer.

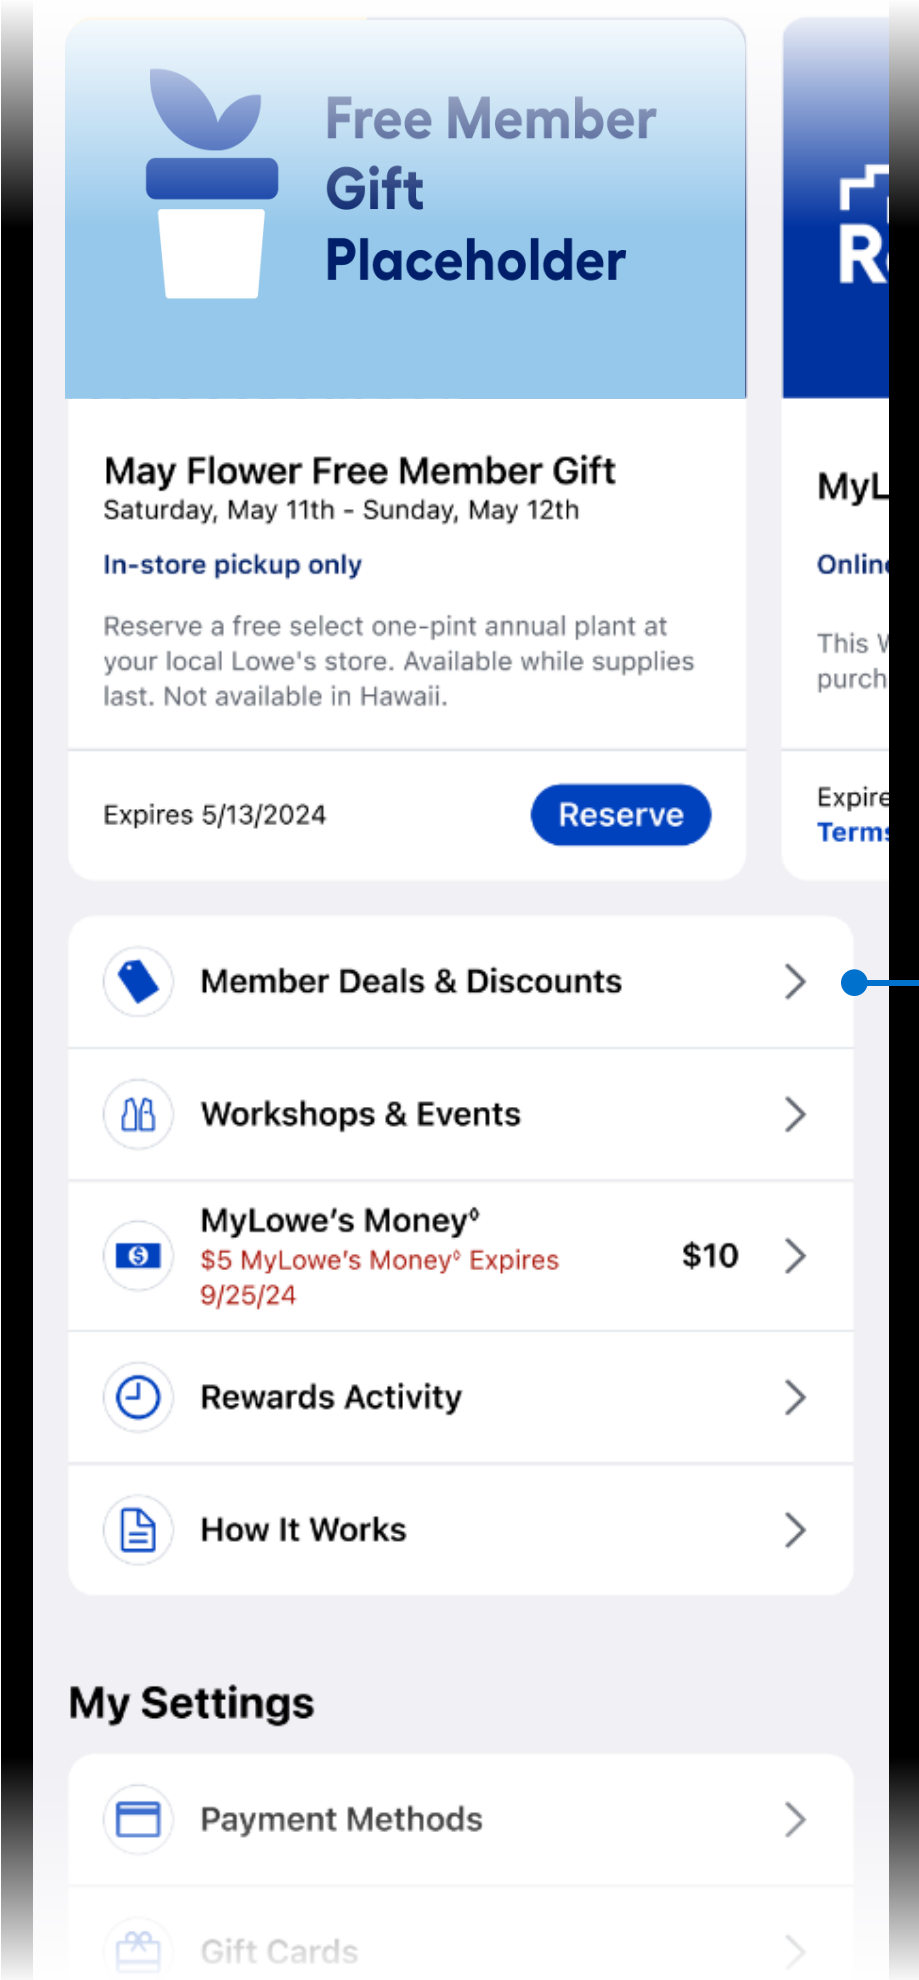

The QR code (when scanned) connects any store purchase directly to the customer's account and also shows their payment method as well as any offers or MyLowe's Money applied.

Available offers will be applied to customers' orders based on their basket.

Member Deals & Exclusives – Offers in One Place

Problem statement: Customers find it hard to find member deals and point booster that may be relevant from them. Current state, is a large merch bucket that is often hard to determine what is relevant.

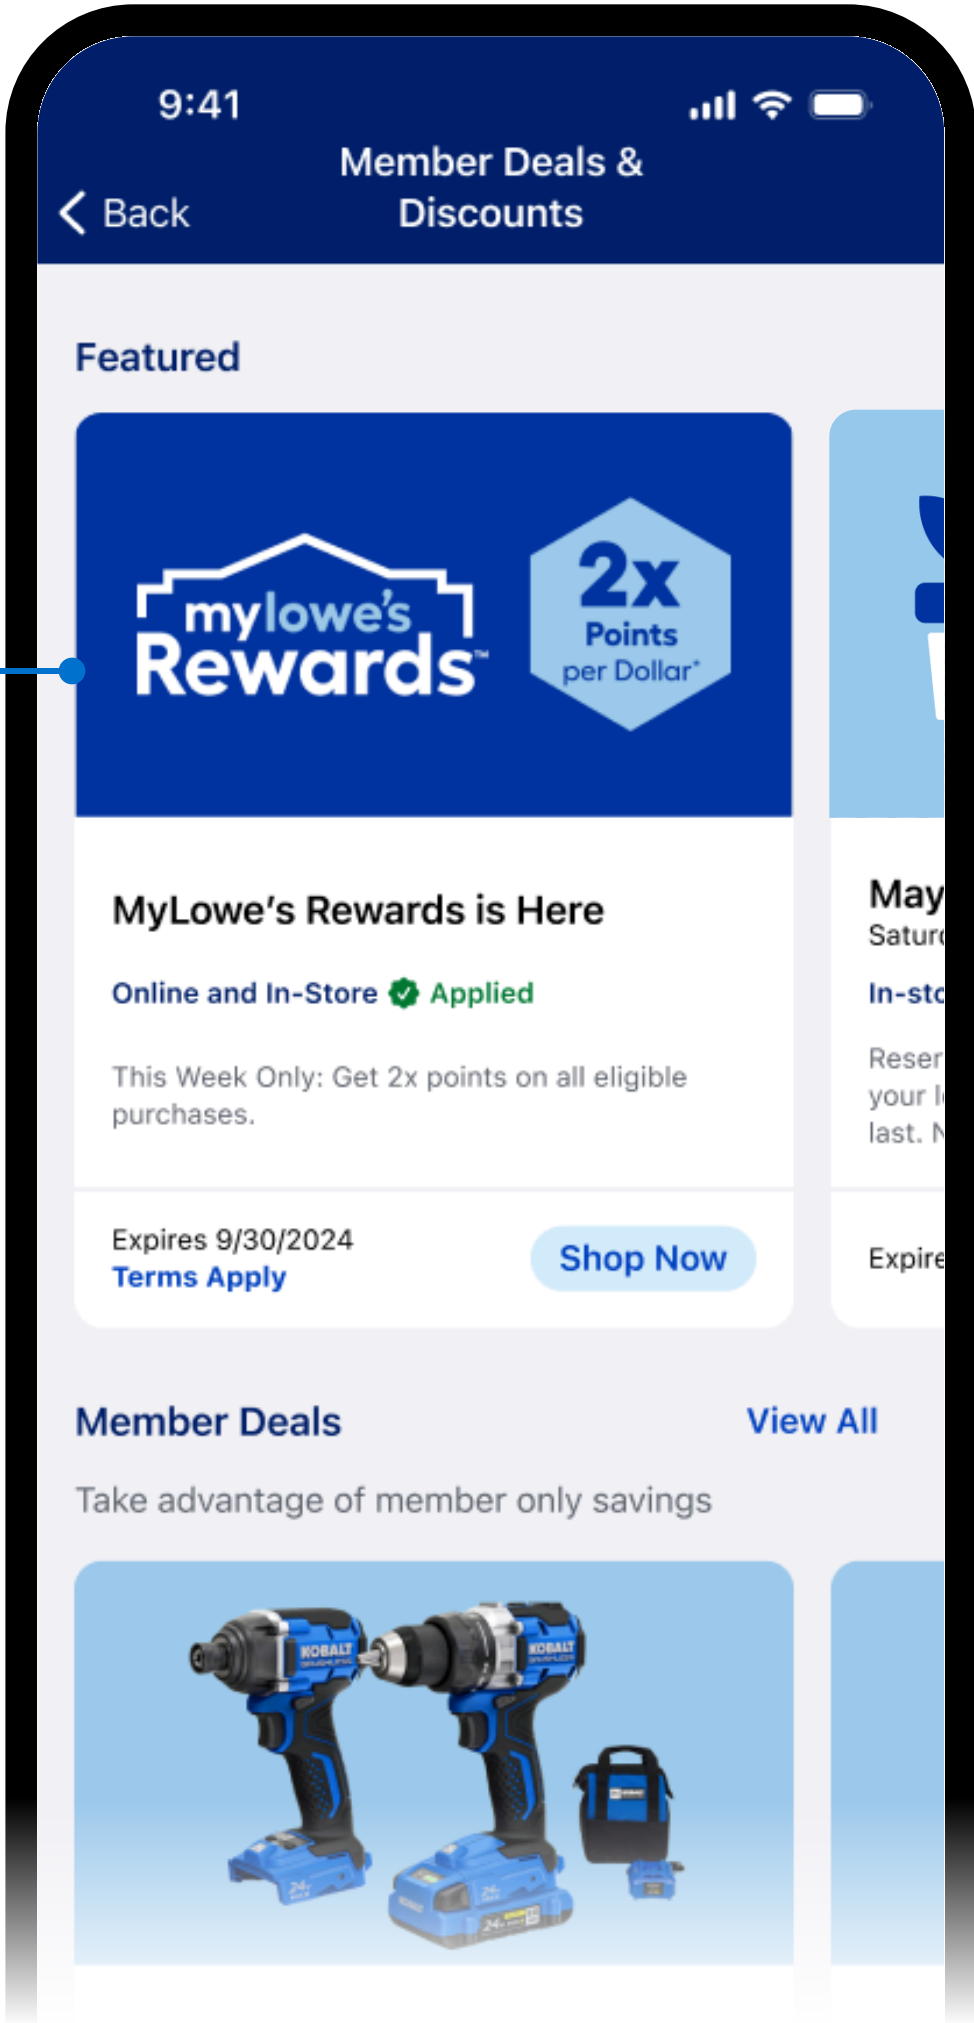

- We will help show customers what is relevant and unique to their shopping needs and personalization by showing “Featured” that would be a curated list for customers.

Account

Pros can quickly view a curated snapshot of the top deals, offers and rewards at the top of the page.

Customers can access all deals, offers, point boosters and exclusive rewards from one place on the Account page.

Member Deals & Discounts

Omnichannel – Allowing DIY customers to access Loyalty from anywhere
