“**Jeff cares deeply about users, their needs, goals, and challenges. He evangelizes iterative development, is a passionate advocate for continuous user testing and discovery, and always seeks to find the fastest and most efficient way to validate/reject the team's hypothesis.**”

► **Lukas Pleva**, Sr. Product Lead - Decision Support

PROFESSIONAL HISTORY

LOWE'S COMPANY INC., Charlotte

2023 • Present

Sr. Manager, UX - Purchase & Post, Home Services, Maintenance, Outdoor

Lead cross-functional teams of product designers, researchers, and content designers to enhance customer experiences across native app, mobile, and desktop platforms. Drive UX strategy and execution across multiple e-commerce verticals and horizontals, delivering cohesive, high-impact solutions that improve usability, engagement, and business results.

Responsibilities:

- Led the end-to-end redesign of the cart and checkout experience from the ground up, resulting in higher conversion rates and significantly reduced user error across platforms.
- Spearheaded the creation of new post-purchase engagement experiences, driving a 200% increase in returning customer rates through targeted UX improvements and customer journey optimizations.

LOWE'S COMPANY INC., Charlotte

2021 • 2023

Sr. Manager, UX - Customer Engagement, Personalization, Account, Loyalty

Leading a team of product designers, product researchers, and content designers through organizational, demand-oriented, and more specifically, customer / user-driven experience processes customized for streamlined utilization of resources to meet market and promotion analyzed releases. Cultivating a creative environment for remote contributors across the United States, and collaborating with business partners across the globe. Delivering industry-leading experiences in e-commerce, marketing, and communications to a broad array of customer segments.

Responsibilities:

- Orchestrating the product processes with business partners and engineers to deliver excellent user experiences and delight for our customers
- Fostering talent within 2 vertical teams that include 22 reporting contributors. Evaluating and putting them on paths to grow in the organization, and in their industry

CVS HEALTH, Chicago

2018 › 2021

Manager, Human-Centered Design

Leading a team of health-minded User Experience Designers, Visual Designers, Infrastructure Architects, Experience researchers, and User Testing Specialists to create an empathetic, patient-focused benefits enrollment software. Proud to provide 100% user tested experiences.

Responsibilities:

- ▶ Leading discovery with product managers on upcoming initiatives, and assigning projects to design team members
- ▶ Holding project-timely status and showcasing meetings with design team to help troubleshoot a project, or provide helpful feedback prior to business review and user testing
- ▶ Contributing to the success of project deliverables with visual style guidelines in adherence to development platforms
- ▶ Creating user-centric flow charts, diagrams, wire frames, prototypes, and visual mockups on individual and team oriented projects
- ▶ Presenting conceptional to fully user tested designs to business and product owners at numerous points of design to hit all project / development timelines, and release schedules
- ▶ Creating design specification for seamless project hand-off from UX to front-end development
- ▶ Facilitating design-based learning workshops
- ▶ Mentoring junior to mid-level designers with focus on visual / experience design, and interaction
- ▶ Reimagining the voice-based interactive benefits platform using IA and VUI practices

AETNA, Chicago

2016 › 2018

Senior User Experience Designer

Creating one-of-a-kind cross platform health experiences to help users of all ages enroll in employer-provided benefits or for retirement, and Medicare benefits. Sketching, prototyping, testing and designing a solution based 100% on user tested results.

Responsibilities:

- ▶ Discovering common user frustrations with popular health technology, as well as similar patient engagement offerings through user shadowing, interviews and ethnographic testing
- ▶ Developing a full scale application prototype to be used not just as a development guideline, but as a tool for business leads to share the solution outlook with product directors, stakeholders, and potential clients
- ▶ Writing development story points for sprint planning based on team capacities, keeping to a strict UX acceptance criteria for each increment
- ▶ Working closely with both on-shore business project leads, and global development leads to reach goal symmetry

R1 / ACCRETIVE HEALTH, Chicago

2015 › 2016

Lead User Experience Designer

Offering a three-tier software platform, the largest being a *Revenue Cycle Management (RCM)* component. My role was in their newly created, and eagerly anticipated patient engagement solution, and was tasked in creating this brand new experience from the ground up.

Responsibilities:

- ▶ Discovering common user frustrations with popular health technology, as well as similar patient engagement offerings through user shadowing, interviews and ethnographic testing
- ▶ Developing a full scale application prototype to be used not just as a development guideline, but as a tool for business leads to share the solution outlook with product directors, stakeholders, and potential clients
- ▶ Writing development stories for sprint planning based on team capacities, keeping to a strict UX acceptance criteria for each increment

PINPOINT CARE, Chicago

2012 › 2015

Sr. (UX) Experience Designer / Engineer, Client Experience Team

An experience-driven healthcare platform re-imagining how patients, physicians and providers work together to create a much more fluid cycle of care. A big part of this cycle is creating a one-of-a-kind experience for interacting, scheduling, evaluating, housing and tracking patient care.

Responsibilities:

- ▶ Applying user-centric design methods to translate user needs and business objectives into intuitive and engaging user-interfaces detailed enough for a single user but broad enough for users across many role types
- ▶ Implementing a fresh healthcare dashboard solution using creative, and conceptual problem-solving skills, following modern, responsive framework layouts and interactions using Axure, OmniGraffle, Lucid Chart, and InVision
