PROFESSIONAL HISTORY

LOWE'S COMPANY INC., Charlotte

2023 - Present

Sr. Manager, UX - Purchase & Post, Home Services, Maintenance, Outdoor

Leading three talented teams of product designers, product researchers, and content designers with the task of improving multiple verticals and horizontals on the customer facing commerce experience for native app, mobile and desktop web experiences

Responsibilities:

- ▶ Led the end-to-end redesign of the cart and checkout experience from the ground up, resulting in higher conversion rates and significantly reduced user error across platforms.
- ▶ Spearheaded the creation of new post-purchase engagement experiences, driving a 200% increase in returning customer rates through targeted UX improvements and customer journey optimizations.

LOWE'S COMPANY INC., Charlotte

2021 - 2023

Sr. Manager, UX - Customer Engagement, Personalization, Account, Loyalty

Leading a team of product designers, product researchers, and content designers through organizational, demand-oriented, and more specifically, customer / user driven experience processes customized for streamlined utilization of resources to meet market and promotion analyzed releases. Cultivating a creative environment for remote contributors across the United States, and collaborating with business partners across the globe. Delivering industry-leading experiences in e-commerce, marketing, and communications to a broad array of customer segments.

Responsibilities:

- ▶ Orchestrating the product processes with business partners and engineers to deliver excellent user experiences and delight for our customers
- ▶ Fostering talent within 2 vertical teams that include 22 reporting contributors. Evaluating and putting them on paths to grow in the organization, and in their industry

AWARDS & RECOGNITION

The Show 2008, Minneapolis, MN

“ Jeff cares deeply about users, their needs, goals, and challenges. He evangelizes iterative development, is a passionate advocate for continuous user testing and discovery, and always seeks to find the fastest and most efficient way to validate/reject the team's hypothesis. ”

▶ Lukas Pleva, Sr. Product Lead - Decision Support

CVS HEALTH, Chicago

2018 • 2021

Manager, Human-Centered Design

Leading a team of health-minded User Experience Designers, Visual Designers, Infrastructure Architects, Experience researchers, and User Testing Specialists to create an empathetic, patient-focused benefits enrollment software. Proud to provide 100% user tested experiences.

Responsibilities:

- ▶ Leading discovery with product managers on upcoming initiatives, and assigning projects to design team members
- ▶ Holding project-timely status and showcasing meetings with design team to help troubleshoot a project, or provide helpful feedback prior to business review and user testing
- ▶ Contributing to the success of project deliverables with visual style guidelines in adherence to development platforms
- ▶ Creating user-centric flow charts, diagrams, wire frames, prototypes, and visual mockups on individual and team oriented projects
- ▶ Presenting conceptional to fully user tested designs to business and product owners at numerous points of design to hit all project / development timelines, and release schedules
- ▶ Creating design specification for seamless project hand-off from UX to front-end development
- ▶ Facilitating design-based learning workshops
- ▶ Mentoring junior to mid-level designers with focus on visual / experience design, and interaction
- ▶ Reimagining the voice-based interactive benefits platform using IA and VUI practices

AETNA, Chicago

2016 • 2018

Senior User Experience Designer

Creating one-of-a-kind cross platform health experiences to help users of all ages enroll in employer-provided benefits or for retirement, and Medicare benefits. Sketching, prototyping, testing and designing a solution based 100% on user tested results.

Responsibilities:

- ▶ Discovering common user frustrations with popular health technology, as well as similar patient engagement offerings through user shadowing, interviews and ethnographic testing
- ▶ Developing a full scale application prototype to be used not just as a development guideline, but as a tool for business leads to share the solution outlook with product directors, stakeholders, and potential clients
- ▶ Writing development story points for sprint planning based on team capacities, keeping to a strict UX acceptance criteria for each increment
- ▶ Working closely with both on-shore business project leads, and global development leads to reach goal symmetry

R1 / ACCRETIVE HEALTH, Chicago

2015 • 2016

Lead User Experience Designer

Offering a three tier software platform, the largest being a Revenue Cycle Management (RCM) component. My role was in their newly created, and eagerly anticipated patient engagement solution, and was tasked in creating this brand new experience from the ground up.

Responsibilities:

- ▶ Discovering common user frustrations with popular health technology, as well as similar patient engagement offerings through user shadowing, interviews and ethnographic testing
- ▶ Developing a full scale application prototype to be used not just as a development guideline, but as a tool for business leads to share the solution outlook with product directors, stakeholders, and potential clients
- ▶ Writing development stories for sprint planning based on team capacities, keeping to a strict UX acceptance criteria for each increment

PINPOINT CARE, Chicago

2012 • 2015

Sr. (UX) Experience Designer / Engineer, Client Experience Team

An experience-driven healthcare platform re-imagining how patients, physicians and providers work together to create a much more fluid cycle of care. A big part of this cycle is creating a one-of-a-kind experience for interacting, scheduling, evaluating, housing and tracking patient care.

Responsibilities:

- ▶ Applying user-centric design methods to translate user needs and business objectives into intuitive and engaging user-interfaces detailed enough for a single user but broad enough for users across many role types
- ▶ Implementing a fresh healthcare dashboard solution using creative, and conceptual problem-solving skills, following modern, responsive framework layouts and interactions using Axure, OmniGraffle, Lucid Chart, and InVision
